CLOTHED WITH POWER TO MAKE LAWSON TELL WHAT HE KNOWS

Committee on Rules Obtains Authority to Force Witnesses to Testify

DEMOCRATS ARE AFRAID

Of Leak Investigation, is Charge Made by House Republicans

Washington, Jan. 12.—Clothed with power for forcing witnesses to testify, the house committee on rules will call Thomas W. Lawson before it again probably on Monday, and demand that he name the congressmen who he says, told him that a cabinet officer, a member of congress and a broker were in a conspiracy to make money in the market on official secrets.

If Lawson refuses, and it is generally believed he will, the committee will report him either to the house or the district courts for contempt.

This plan has been agreed upon by the committee after a heated debate on the floor of the house between republicans and democrats.

The republicans charged that the democrats feared the "leak" inquiry, and democrats insisted that the republicans were taking a stand on partisan politics.

Representative Henry declared that the republicans were in a conspiracy against the democratic administration.

He said that Representative Wood was the author of the investigation resolution and that the resolutions were given aid by Representative Gardner of Massachusetts, and that even Theodore Roosevelt had helped, because the president was seeking to bring about peace and these gentlemen wre trying to tie his hands.

The plan gives the rules committee power to make Lawson testify, and was suggested by Representative Cantrell, of Kentucky, a democrat, and came as a surprise to both sides.

THREE AMERICANS WIN RENOWN IN 3 ARMIES

CAPT. MALVILLE HALL. SERG. E. COWDIN. LIEUT. F T. COLBY

These three Americans—Captain Malville Hall, of the British army; Sergeant Pilot Elliott Cowdin of the French army, and Lieutenant Francis T. Colby of the Belgian army—have won fame in their fighting in Europe. Several times each has been mentioned for valorous deeds. They are helping to convince Europeans that some Americans can fight.

MAINE MAN BUYS LAND

Ernest Hall Invests in Moore Haven Property for Farming Purposes

The first representative potato grower from the state of Maine which cliams to be one of the best potato sections in the United States, arrived in Miami recently and after an inquiry at the office of The South Florida Farms Co., regarding the adaption of Moore Haven soil for the potato industry, decided to investigate for himself.

He visited Moore Haven this week and returned absolutely confident that the Moore Haven country was the finest potato district in the south.

Mr. Hall immediately closed for a tract of land and will grow his first crop of potatoes this winter.

The Maine man is the forerunner of many others from the state of Maine who intend to grow potatoes in the Moore Haven country. And so the widespread interest and knowledge of the Moore Haven possibilities in an agricultural way continue to grow.

Mr. Hall came to Florida from Maine with the definite purpose in view of buying land that would be the most suitable for potato growing, and the fact that, after he had investigated fully every location, with the practical and expert knowledge that he has from experience, he bought Moore Haven land, is but another vindication of the claims made for this most wonderful of all agricultural developments in the south.

DRIVE FULZ OUT OF GAME

Is Purpose of Magnates, and to Require Contracts Before Training

Chicago, Jan. 12.—That D. L. Fultz president of the baseball players fraternity, will be driven out of baseball, the fraternity crushed and every player in the American league obliged to sign a contract before going to the spring training camps, and that the American League will never again listen to any proposal which Fultz may make, was the reply of President Johnson of the American League to threats to call a strike of players before the beginning of the 1917 season.

COULD NOT COMMIT COMMITTEE AGAINST UNIVERSAL TRAINING

Washington, Jan. 12.—Efforts, today, to put the house military committee on record against universal military training failed, but resulted in the adoption of a motion that it should be considered in the framing of this year's army appropriation bill.

The action of the committee, however, will not interfere with the work of the Chamberlain bill for universal training, and the advocates of that bill will have it perfected as soon as possible.

WITHDRAWAL EXPEDITION

Into Mexico is Next Move of Administration, Next After, not Known

Washington, Jan. 12.—The withdrawal of General Pershing's expedition and the sending of ambassador Fletcher to Mexico City, is understood to be the first step of the United States in dealing with the de facto government.

President Wilson has decided on the next move but whether it will be announced after the meeting in New York next Monday is not known.

Mexican and American commissioners indicate that the withdrawl of American troops would be carried out, on the condition that Carranza was asked to agree to the plan, notwithstanding his failure to sanction it.

CANADIAN TOURIST COMING TO MIAMI

A party of seventy five to eighty persons from Canada and the northwestern part of the United States are expected to arrive in Miami on January 31st under the guidance of Mrs. Estelle Y. Cuthbert, who has again written to the Chamber of Commerce to say that she and her party plan to remain about ten days ot two weeks in Palm Beach and Miami.

The Chamber of Commerce is arranging to meet the visitors at their train and give them an automobile trip in and near Miami, pointing out the main attractions.

BIG CARNIVAL OF SPORTS

New York, Jan. 12.—Seldom has ever an athletic meet brought together such classy athletes as those who will compete tomorrow night at the annual indoor track and field games of the Irish-American Athletic Club, at the Seventy-first Regiment armory. Fourteen events, including a number of special and invitation races, will be decided and in each of them some of the greatest athletes in the country will compete. Every kind of a champion is entered and in many of the events it will be champion against champion.

CABINET DISCUSSED PRESIDENT'S POSITION BELLIGERENTS' REPLIES

Washington, Jan., 12.—The attitude of President Wilson towards the replies of the warring nations was discussed in today's cabinet meeting.

In one quarter it was suggested that one or more of the European neutrals might urge Germany to make public her terms, and others thought that a voluntary statement might be forthcoming from Berlin.

It was generally agreed that the nature of the entente terms coupled the terms cannot be accepted, make an early peace unlikely.

The administration is still certain that the discussion is not entirely closed. In the German view it is entirely with the president whether that there shall be further negotiations.

corsidered by the Germanic allies.

It is believed that any proposition President Wilson may make will be even to agree to discuss the conditions of the entente reply.

BRITISH DENY BERLIN REPORT

Of Infantry Engagements Being in Progress North of Ancore River

Associated Press, Jan. 12.—Berlin reports of infantry engagements being in progress north of the river Anore, in France, are denied in the British official communication.

Berlin credits the British with two attacks in this sector. The British are reported to have been successful north of the Arras. In the Vosges the French captured a number of prisoners.

The Austro-Germans have been driven back for more than a mile by the Rumanians in Kassina valley. The Russians were pushed back further toward the Sereth. The Germans took the town of Laburt.

A Turkish official report for January 11, says that a British cruiser of fifty six hundred tons, was sunk by gunfire during an attack on the island of Kastlelorize, in the eastern Mediterranean. The report may refer to the British battleship Cornwallis, or the British seaplane carried by the Ben-My-Cheree, reported by the British admiralty as lost.

Italians Lose Battle.

Rome, Jan. 12.—It is officially announced that the Italian battleship Regina Margherita struck a mine and sank on the eleventh of this month.

Six hundred and five persons aboard perished, while two hundred and seventy were saved.

MONEY FOR NATIONAL FOREST ROADS AND TRAILS IS ALLOTED

Washington, Jan. 12.—Secretary Houston has announced the amount allotted to each state from the million dollars to be spent during the fiscal year 1918 in construction roads and trails within or partly within the national forests. This money is part of the ten million dollars appropriated by the federal aid road act to assist development of the national forests, which becomes available at the rate of a million dollars a year for ten years.

The allotments as approved are as follows: Alaska, $46,354; Arizona, $58,664; Arkansas, $9,803; California, $140,988; Colorado, $62,575; Idaho, $108,730; Montana, $70,042; Nevada, $19,296; New Mexico, $42,495; Oregon, $128,111; South Dakota, $8,092; Utah, $41,167; Washington, $91,944; Wyoming, $40,684. A total of $9,995 has been allotted to Florida, Michigan, Minnesota, Nebraska, North Dakota, and Oklahoma. The group of eastern states—Georgia, Maine, New Hampshire, North and South aCrolina, Tennessee, Virginia, and West Virginia—in which the government is purchasing lands for national forests, receives $21,120.

In making allotments, it is explained, ten per cent of the amount available for 1918 is withheld as a contingent fund. One-half of the remainder has been apportioned among the states in amounts based on the area of the national forest lands in each state, while the other half has been allotted on a basis of the estimated value of the timber and forage resources which the forests contain.

CONSPIRACY TO KILL JOHNSON

Blow Up the State and Overthrow Government Charged at Trial

San Francisco, Jan. 12.—During the trial today of Thomas J. Mooney, labor organizer and four others, charged with murder in connection with the bomb explosion that killed participants in the July preparedness parade, Assistant District Attorney Edward A. Cunha charged that Alexander Berkman, editor of the Blast, an anarchistic publication, Miss M. E. Fitzgerald, his secretary, Robert Minor, treasurer of the International Workers Defense, and four others prominent in labor circles, directed a conspiracy to assassinate Senator-elect Hiram W. Johnson, to "blow up the state," and overthrow the government.

Attorney Cunha declared that the proof was found in a raid on the Blast office.

NOTE

Of Austria in Reply to Entente Follows German Lines of Thought

REFUSE RESPONSIBILITY

For Continuance of War, Before "God and Mankind" in Reply

London, Jan. 12.—In a note to neutral nations and the holy see, count Czernin von Chundenitz, foreign minister for Austro-Hungary, has set forth Austria's views on the situation created by the entente reply to the central powers.

The note, while not identical with the German reply, follows the same lines.

The document says:

"The question as to on which side the military situation appears the stronger, is idle, and may confidentally be left to the judgment of the world.

"The central powers look on their purely defensive aims as having been attained, while their enemies travl farther and farther from the realization of their plans.

In conclusion the note declares, "Before God and mankind we repudiate the responsibility for the continuance of the war."

MAY NOT FIGHT EXTRADITION

Said Harry Thaw Will Surrender as Soon as He Can Leave Hospital

Philadelphia, Jan., 12.—The effort to remove Harry K. Thaw to New York to stand trial on charges of kidnapping and assaulting Frederick Gump, Jr., of Kansas City is not likely to be resisted, it is announced here.

Thaw's surrender will be made as soon as he is able to leave the hospital.

Oliver A. Brower, a representative of the Thaw interests, is held without requisition papers from New York.

After Brower was refused bail an application was made for habeas corpus by Harry Scott, his attorney, who said papers bearing on the Gump case found in Bowers' possession were given him by Thaw.

Thaw's condition was reported as good.

BIG FOUNDRY FIRE WAS INCENDIARY

New York, Jan., 12—Officials of the Canadian Car Foundry Company at Kingland, N. J., issued a statement today, that fire explosions which caused a loss of $16,000,000, was incendiary.

YOUNG WOMAN SHOT AND CUT

Found Dead in Hotel, Said to be From Prominent W. Virginia Family

Columbus, O., Jan., 12.—Mena Simon twenty five years of age, said to be a prominent member of a prominent West Virginia family, was found shot and cut to death in a leading Columbus hotel, today.

The young woman had been dead twelve hours when her body was found.

The police are seeking a former Kansas City broker who is said to have registered at the hotel under the name of G. V. Van Brunt, of Chicago.

The body was found in Van Brunt's room.

A Columbus editor declared that Van Braunt told him that he was here under an assumed name and that he was laying low on account of a girl scrape in Kansas City.

He talked with Joe Tinker, here, about a job.

Officials said that the woman was addicted to drink.

KEEPING CLOSE WATCH ON PINK BOLL WORM

Washington, Jan. 12.—Experts in the federal horticultural board are keeping close watch of the border to prevent the importation of the cotton Egyptian pink boll worn, recently discovered in Mexico.

Cotton seed brought from Mexico a year ago, has been traced to Texas oil mills, but the inspectors have found no seed infected in Texas.

BUYING THESE MULES IN CLEAR DAYLIGHT

Despite the general tendency of the various departments of Miami's city government to motorize their appliances, the street department is still buying mules, and when making purchases calls in the board of health as experts and asks the advice of the councilmanic member as consulting engineer, or mulologist.

Yesterday F. H. Wharton ,street commissioner, B. H. Klyce, consulting engineer of the street department, C. W. Murray city engineer, C. H. Reeder, comptroller, and J. C. Tucker, former superintendent of streets, were preparing to go out into the country to inspect mules with the view of buying them. L .T. Highleyman, head of the sanitary department, learned of their intended visit and offered his services.

Twelve mules were carefully inspected and will be bought if they come up to requirements.

It is said one of the mules rejoices in the name of Maud.

POWDER MILL BLOWS UP, KILLS TWO

400,000 Pounds of Powder Destroyed at Dupont Plant in New Jersey

New York, Jan. 12.—Four hundred thousand pounds of powder was destroyed by fire and explosion at the Haskell, New Jersey, plant of the Dupont Powder Company tonight.

The company officials said only two men on the night shift are missing.

Twelve were slightly injured.

No estimate of the loss is obtainable.

There were two explosions. The concussions were heard up the Hudson River as far as Poughkeepsie.

BIG

Real Estate Deal Was Consummated Yesterday in Sale Biscayne Hotel

PRICE PAID $170,000

Shows Wonderful Advance in Realty Values in the Magic City

David Afremow sold the Biscayne hotel block at the corner of Twelfth street and avenue D yesterday for one hundred and seventy thousand dollars. The deed has not yet been signd but a substantial payment has been made to bind the bargain.

The deal was discussed on the streets yesterday and last night Mr. Afremow admitted that he received an offer for the property at the sum named, but added that the papers have not yet passed. He gave out no particulars as to the purchaser or his intentions regarding the property.

This is the greatest sum ever paid for property in the city of Miami, or anywhere in the southern part of the state, real estate dealers insist, and serves to show how Miami values are constantly climbing.

The Biscayne hotel property fronts one hundred feet on Twelfth street and one hundred and twenty feet on avnue D, and is occupied by a three story hotel building covering the entire lot, with store rooms and the Biscayne hotel lobby on the ground floor and the hotel rooms on the two upper flors.

In 1896 when J. A. McDonald bought the lots where the hotel now stands he also purchased two others adjoining on Twelfth street, paying five thousand dollars for the four lots. He erected the Biscayne hotel building at a cost of twenty-eight thousand dollars.

Several years ago Mr. McDonald sold the lot where the Kress building now stands for eighteen thousand dollars, and also the lot on which the W. M. Burdine's Sons five story building stands for twenty-two thousand dollors, and four years ago next month he sold the two remaining lots and the hotel building to Mr. Afremow for fifty five thousand dollars. Mr. McDonald sold for ninety-five thousand dollars the property that cost him thirty-three thousand.

Since purchasing the property from Mr. McDonald, Mr. Afremow has spent eight thousand dollars for remodeling the hotel building, and in the less than the four years he has owned it has collected forty-six thousand dollars in rents.

Some time before the S. H. Kress company erected their new building they were offered fifty thousand dollars for the lot and refused it, and last week Messrs. Burdine's Sons refused one hundred thousand dollars for their lot and the building on it.

FLORIDA BOYS RECEIVE APPOINTMENT REGULAR ARMY

YOUNG WOMAN SHOT AND CUT

Found Dead in Hotel, Said to be From Prominent W. Virginia Family

Columbus, O., Jan., 12.—Mena Simon twenty five years of age, said to be a prominent member of a prominent West Virginia family, was found shot and cut to death in a leading Columbus hotel, today.

The young woman had been dead twelve hours when her body was found.

The police are seeking a former Kansas City broker who is said to have registered at the hotel under the name of G. V. Van Brunt, of Chicago.

The body was found in Van Brunt's room.

A Columbus editor declared that Van Braunt told him that he was here under an assumed name and that he was laying low on account of a girl scrape in Kansas City.

He talked with Joe Tinker, here, about a job.

Officials said that the woman was addicted to drink.

KEEPING CLOSE WATCH ON PINK BOLL WORM

Washington, Jan. 12.—Experts in the federal horticultural board are keeping close watch of the border to prevent the importation of the cotton Egyptian pink boll worn, recently discovered in Mexico.

Cotton seed brought from Mexico a year ago, has been traced to Texas oil mills, but the inspectors have found no seed infected in Texas.

BUYING THESE MULES IN CLEAR DAYLIGHT

Despite the general tendency of the various departments of Miami's city government to motorize their appliances, the street department is still buying mules, and when making purchases calls in the board of health as experts and asks the advice of the councilmanic member as consulting engineer, or mulologist.

Yesterday F. H. Wharton ,street commissioner, B. H. Klyce, consulting engineer of the street department, C. W. Murray city engineer, C. H. Reeder, comptroller, and J. C. Tucker, former superintendent of streets, were preparing to go out into the country to inspect mules with the view of buying them. L .T. Highleyman, head of the sanitary department, learned of their intended visit and offered his services.

Twelve mules were carefully inspected and will be bought if they come up to requirements.

It is said one of the mules rejoices in the name of Maud.

The National open to the Braeburn Country Club, West Newton, Mass., the National Woman's Championship, and Shawnee Country Club, of Shawnee, on the Delaware, Penna.

The Grand Trunk Pacific dry dock, at Prince Rupert, cost $2,500,000.

BIG

Real Estate Deal Was Consummated Yesterday in Sale Biscayne Hotel

PRICE PAID $170,000

Shows Wonderful Advance in Realty Values in the Magic City

David Afremow sold the Biscayne hotel block at the corner of Twelfth street and avenue D yesterday for one hundred and seventy thousand dollars. The deed has not yet been signd but a substantial payment has been made to bind the bargain.

The deal was discussed on the streets yesterday and last night Mr. Afremow admitted that he received an offer for the property at the sum named, but added that the papers have not yet passed. He gave out no particulars as to the purchaser or his intentions regarding the property.

This is the greatest sum ever paid for property in the city of Miami, or anywhere in the southern part of the state, real estate dealers insist, and serves to show how Miami values are constantly climbing.

The Biscayne hotel property fronts one hundred feet on Twelfth street and one hundred and twerty feet on avnue D, and is occupied by a three story hotel building covering the entire lot, with store rooms and the Biscayne hotel lobby on the ground floor and the hotel rooms on the two upper flors.

In 1896 when J. A. McDonald bought the lots where the hotel now stands he also purchased two others adjoining on Twelfth street, paying five thousand dollars for the four lots. He erected the Biscayne hotel building at a cost of twenty-eight thousand dollars.

Several years ago Mr. McDonald sold the lot where the Kress building now stands for eighteen thousand dollars, and also the lot on which the W. M. Burdine's Sons five story building stands for twenty-two thousand dollors, and four years ago next month he sold the two remaining lots and the hotel building to Mr. Afremow for fifty five thousand dollars. Mr. McDonald sold for ninety-five thousand dollars the property that cost him thirty-three thousand.

Since purchasing the property from Mr. McDonald, Mr. Afremow has spent eight thousand dollars for remodeling the hotel building, and in the less than the four years he has owned it has collected forty-six thousand dollars in rents.

Some time before the S. H. Kress company erected their new building they were offered fifty thousand dollars for the lot and refused it, and last week Messrs. Burdine's Sons refused one hundred thousand dollars for their lot and the building on it.

FLORIDA BOYS RECEIVE APPOINTMENT REGULAR ARMY

(Special to The Herald.)

Washington, Jan. 12.—President Wilson sent to senate, today, the nomination of first Lieutenant William M. Husson, of the first infantry, Florida national guard, to be provisional second lieutenant of cavalry in the regular army.

COL. CODY'S ESTATE WAS NOT LARGE

Denver, Jan. 12.—The estate of Colonel Cody, who died here Wednesday, is estimated not to exceed sixty-five thousand dollars, by his attorneys.

It consists of three ranches near Cody, Wyoming, and an equity in a hotel there.

AUTO DEALER KILLED.

Manatee, Jan. 12.—When his car turned turtle on a big fill near here John Hackney, of Sarasota, well known automobile dealer, was instantly killed Wednesday. There is a curve on the fill and it is supposed he lost control of the car which he was driving at great speed. It left the fill and was found 60 feet from the road, turned upside down. A negro chauffeur who was with Hackney at the time was thrown out but was not hurt. Hackney was driving at the time.

FIG GROWERS PROSPER.

Fresno, Cal., Jan. 12.—The falling off of fig imports because of the war has given a big boom to the fig-growing industry in California, according to reports presented by the members of the San Joaquin Valley Fig Growers' Association at their annual meeting here today.

Kingfish have begun to bite and much sport may be looked for by anglers fishing off the reef. A catch of three hundred and seventy-eight pounds was brought into the Elser pier, yesterday, while one hundred and fifty pounds were brought into the Royal Palm dock by the charter boats.

This does not include the number of stray catches which were brought in by various fishing parties, yesterday, and yachtsmen are predicting greater catches from now on. The fish are considered of a good size as they weigh from five to twelve pounds each.

Yacht Seminole, arrived in the bay, yesterday, and is lying at the terminal dock where she is receiving a load of coal. The Seminole is owned by a Mr. Phipps, who is expeteed to arrive in the city some time next week for a lengthy cruise among the keys. The yacht will remain in the vicinity of Miami for the entire seasen.

The yacht Tanguingui, belonging to J. C. McCoy, has been thoroughly overhauled and left yesterday on a cruise with Mr. McCoy and a party of friends on board.

Fishing from the yacht Greyhound, on Thursday, W. T. Adair, of New York City, caught fifteen grouper and a snapper which attracted much attention when brought into the Elser pier. The Greyhound is a charter boat commanded by Captain Graumlich.

Yacht Kalavala, owned by Captain Thompson, left yesterday for a cruise to Key West and other points among the keys with a party of Mr. Thompson's guests on board. These included Mrs. C. R. Hunn, of Chicago, Miss Primauz, Miss Armstrong and F. R. Gibson.

The charter boat Dorothy, left the Royal Palm dock, yesterday, with a party of four on a two days cruise among the keys.

The charter boat Snap Shot, Captain Green, was used as a dispatch boat yesterday, and carried some mail and telegrams from the Royal Palm dock to the yacht, Joyeuse, which is cruising and fishing among the keys.

Mr. and Mrs. F. G. Squire and several friends, fished from the charter boat, Cocoon, yesterday and returned with a good catch of grouper.

Mr. and Mrs. A. G. Paine, who are spending the winter in this city, chartered the boat Juilet, Captain Ross, yesterday, and returned with three amberjacks, one of which weighed thirty-five pounds, and two large kingfish.

The rough water on the outside drove a number of boats from the reef, yesterday, and few catches were made as a consequence. The charter boat, Corsair, Captain Scott, had Mr. and Mrs. A. Lipper, and Mr. and Mrs. George Buchanan, of New York City, out yesterday, but no fish were caught.

The charter boat, Helena IV, Captain Manson, was chartered, yesterday, by Louis Koons and Mr. Ogden who returned with eight kingfish.

The houseboat, Comfort, arrived in the bay yesterday and proceeded up the Miami river. The Comfort belongs to J. Tracy, of Patchogue, L. I.

The yacht, Idealia, which belongs to A. C. Woodman, of Philadelphia, left the bay yesterday for a short cruise. Captain H. W. Greene is the commander of the yacht.

E. N. Goodall, owner of the yacht, Record, has been doing some excellent work in the way of staking and buoying the channel in the lower bay and among the keys and most especially along the card banks in Cards scund. The Record arrived here yesterday from the keys and is lying at anchor on the bay.

Mr. and Mrs. I. H. Freund, of Chicago were out on the charter boat, Nemo, Captain Riley, yesterday and returned to the Royal Palm dock with three kingfish and two grouper. One of the grouper weighed thirty pounds.

Park Commissioner Irwin M. Krohn of Cincinnati, has chartered the Nemo, Captain Riley, for a trip tc the reef, today, and expects to bring back a record catch.

The houseboat Lanai, which belongs to Arthur Curtis James, has been placed in readiness for the arrival of Mr. and Mrs. James who are expected about February 15. Mr. James has an elegant estate at Cocoanut Grove where he spends his winters with his family. He will have a fine new ocean-going yacht built for traveling from New York to Florida, next season.

A British patent covers a series of tanks attached to a cable to permit a vessel to spread oil on rough water.

ATHLETES WILL ENTER CONTEST

Seminole Athletic Association Will Have Representatives in Water Sports

At a meeting of officials of the Seminole Athletic Association last night it was decided to put a team of swimmers into the water carnivals at the Royal Palm pool each Friday night during the winter season, and to organize for water polo.

An effort will be made to form a league of polo players, and with this end in view W. H. Newell and R. R. Reimert, Jr., were appointed to meet with swimmers of Miami who are interested in sports of this nature, at the casino next Tuesday night.

The enthusiasts are assured of two teams, but are trying to organize four so as to play a schedule of games for the championship of the city.

During the meeting of athletes last night Billy St. Mary of Saginaw, Mich., champion standard bag puncher of the world, gave an exhibition of his art and it must be admitted that his speed was marvelous.

COURT EQUIPS A CUPID'S BOWER.

Chicago Judge Battles Divorce by Fitting Up a Room for Spooning.

Chicago: Husbands and wives who allow their troubles to reach the court of domestic relations will be given an opportunity to "make up" in a little room attached to the court which is being fitted up for that purpose by Judge John Stelk. The judge has not given the room a name yet, but he said it will be fitted up in a way aimed to aid the disgruntled in renewing their love for one another. Plants, flowers, canary birds, a music box and soft draperies will contribute to the furnishings.

"The purpose of the fittings will be to bring out the old affection that the couple held for each other when they were courting," said the judge. "It is my purpose to get them to spoon all over again and then go home and live as they ought to."

FISHER WILL BUILD CASINO

The Finest Structure of the Kind in United States to Take Place of Old One

When visitors now in Miami return next winter they will see at Miami Beach a casino second to none in the United States, for Carl G. Fisher has announced his intention of erecting such an establishment upon the site now occupied by the Collins' casino which Mr. Fisher bought several months ago from the Miami Beach Improvement Company.

The old building will be torn down about the first of May, if Mr. Fisher does not alter his present plan, and then he will begin the erection of a building in keeping with the others he has constructed on his property on the peninsula.

"The finest casino in the United States," were the words of Mr. Fisher when describing his plans the other day. This finest casino will be equipped with the latest appliances for the convenience and comfort of the patrons.

CHANCE FOR GUARDSMEN.

Washington, Jan. 12.—At examinations being held today and tomorrow in various cities throughout the country the enlisted men of the National Guard of all the states and the District of Columbia are to be given their first chance to enter the United States Military Academy as cadets. At its last previous session congress authorized the secretary of war to appoint each year to West Point twelve enlisted men of the militia from each state and territory. Those who qualify at the preliminary examination will be authorized to report for the regular examination to be held next March, and the appointments will be awarded to qualified candidates in the order of merit established at the regular examination.

French authorities have opened 135 miles of a railroad in Algeria which eventually will cross the Sahara desert.

FOREST NOTES.

On about two million acres of National Forest lands grazing by domestic stock is either entirely prohibited or is greatly restricted to provide range for elk.

It is estimated that in 1915 about 40,000 forest fires occurred in the United States, which burned over about 5,900,000 acres and caused a damage of approximately $7,000,000.

Revised estimates place the amount of standing merchantable timber in the United States at approximately 2,767 billion board feet. Of this amount 1,464 billion board feet, or 53 per cent. of the total, is in California, Washington, Oregon, Idaho, and Montana.

During the past fiscal year there were constructed on the National Forests 227 miles of new road, 1,975 miles of trails, 2,124 miles of telephone line, 89 miles of fire lines, 81 lookout structures, 17 corrals and 202 water improvements.

Since the passage in 1912 of the act providing funds for land classification, and as a direct result of the classification work, a total of 13,477,781 acres has been eliminated from the National Forests. This includes an elimination of approximately 5,800,000 acres of land from the Chugach National Forest in Alaska, which embraced lands of low value for any purpose other than mining.

MAE MARSH AT THE HIPPODROME TODAY

Mae Marsh proved her willingness to labor in the cause of art recently when she learned to play a violin and to dive into the water from a great height for the express purpose of appearing to advantage in the new Triangle-Fine Arts photoplay "The Wharf Rat," to be shown at the Hippodrome today.

TODAY AT THE PARAMOUNT

Viola Dana, dainty little star of Edison's five-part feature "The Cossack Whip;" scheduled for screening at the Paramount Theatre today, was celebrated as a dancing soubrette before the Edison management persuaded hed to desert the footlights for the camera. This training stands her in good stead in this latest film success, as the leading role demanded an actress of emotional power who could dance the most difficult Russian figures.

HUGHES TO BE PRESIDENT

New York, Jan. 12.—Charles E. Hughes, late republican candidate for president of the United States, is slated for election to the presidency of the New York State Bar Association at the annual meeting of the association which began its sessions today in Brooklyn. Mr. Hughes was unanimously selected for the honor by the nominating committee, of which Alton B. Parker, one-time democratic candidate for president of the United States, is the chairman. The nomination is equivalent to election.

APPEAL STAYS EXECUTION

Huntsville, Ala., Jan. 12.—This was the day originally set by the court for the execution of David B. Overton, former clerk of the Madison county circuit court, whose recent sensational trial resulted in his conviction and sentence to death for the murder of Probate Judge William T. Lawler, his political opponent. An appeal taken by counsel for the convicted man has served to stay the execution and it will probably be several months before the final disposal of the case.

Mr. and Mrs. F. G. Squire and several friends, fished from the charter boat, Cocoon, yesterday and returned with a good catch of grouper.

Mr. and Mrs. A. G. Paine, who are spending the winter in this city, chartered the boat Juilet, Captain Ross, yesterday, and returned with three amberjacks, one of which weighed thirty-five pounds, and two large kingfish.

The rough water on the outside drove a number of boats from the reef, yesterday, and few catches were made as a consequence. The charter boat, Corsair, Captain Scott, had Mr. and Mrs. A. Lipper, and Mr. and Mrs. George Buchanan, of New York City, out yesterday, but no fish were caught.

The charter boat, Helena IV, Captain Manson, was chartered, yesterday, by Louis Koons and Mr. Ogden who returned with eight kingfish.

The houseboat, Comfort, arrived in the bay yesterday and proceeded up the Miami river. The Comfort belongs to J. Tracy, of Patchogue, L. I.

The yacht, Idealia, which belongs to A. C. Woodman, of Philadelphia, left the bay yesterday for a short cruise. Captain H. W. Greene is the commander of the yacht.

E. N. Goodall, owner of the yacht, Record, has been doing some excellent work in the way of staking and buoying the channel in the lower bay and among the keys and most especially along the card banks in Cards scund. The Record arrived here yesterday from the keys and is lying at anchor on the bay.

Mr. and Mrs. I. H. Freund, of Chicago were out on the charter boat, Nemo, Captain Riley, yesterday and returned to the Royal Palm dock with three kingfish and two grouper. One of the grouper weighed thirty pounds.

Park Commissioner Irwin M. Krohn of Cincinnati, has chartered the Nemo, Captain Riley, for a trip to the reef, today, and expects to bring back a record catch.

The houseboat Lanai, which belongs to Arthur Curtis James, has been placed in readiness for the arrival of Mr. and Mrs. James who are expected about February 15. Mr. James has an elegant estate at Cocoanut Grove where he spends his winters with his family. He will have a fine new ocean-going yacht built for traveling from New York to Florida, next season.

A British patent covers a series of tanks attached to a cable to permit a vessel to spread oil on rough water.

ATHLETES WILL ENTER CONTEST

Seminole Athletic Association Will Have Representatives in Water Sports

At a meeting of officials of the Seminole Athletic Association last night it was decided to put a team of swimmers into the water carnivals at the Royal Palm pool each Friday night during the winter season, and to organize for water polo.

An effort will be made to form a league of polo players, and with this end in view W. H. Newell and R. R. Reimert, Jr., were appointed to meet with swimmers of Miami who are interested in sports of this nature, at the casino next Tuesday night.

The enthusiasts are assured of two teams, but are trying to organize four so as to play a schedule of games for the championship of the city.

During the meeting of athletes last night Billy St. Mary of Saginaw, Mich., champion standard bag puncher of the world, gave an exhibition of his art and it must be admitted that his speed was marvelous.

COURT EQUIPS A CUPID'S BOWER.

Chicago Judge Battles Divorce by Fitting Up a Room for Spooning.

Chicago: Husbands and wives who allow their troubles to reach the court of domestic relations will be given an opportunity to "make up" in a little room attached to the court which is being fitted up for that purpose by Judge John Stelk. The judge has not given the room a name yet, but he said it will be fitted up in a way aimed to aid the disgruntled in renewing their love for one another. Plants, flowers, canary birds, a music box and soft draperies will contribute to the furnishings.

"The purpose of the fittings will be to bring out the old affection that the couple held for each other when they were courting," said the judge. "It is my purpose to get them to spoon all over again and then go home and live as they ought to."

FISHER WILL BUILD CASINO

The Finest Structure of the Kind in United States to Take Place of Old One

When visitors now in Miami return next winter they will see at Miami Beach a casino second to none in the United States, for Carl G. Fisher has announced his intention of erecting such an establishment upon the site now occupied by the Collins' casino which Mr. Fisher bought several months ago from the Miami Beach Improvement Company.

The old building will be torn down about the first of May, if Mr. Fisher does not alter his present plan, and then he will begin the erection of a building in keeping with the others he has constructed on his property on the peninsula.

"The finest casino in the United States," were the words of Mr. Fisher when describing his plans the other day. This finest casino will be equipped with the latest appliances for the convenience and comfort of the patrons.

CHANCE FOR GUARDSMEN.

Washington, Jan. 12.—At examinations being held today and tomorrow in various cities throughout the country the enlisted men of the National Guard of all the states and the District of Columbia are to be given their first chance to enter the United States Military Academy as cadets. At its last previous session congress authorized the secretary of war to appoint each year to West Point twelve enlisted men of the militia from each state and territory. Those who qualify at the preliminary examination will be authorized to report for the regular examination to be held next March, and the appointments will be awarded to qualified candidates in the order of merit established at the regular examination.

FOREST NOTES.

On about two million acres of National Forest lands grazing by domestic stock is either entirely prohibited or is greatly restricted to provide range for elk.

It is estimated that in 1915 about 40,000 forest fires occurred in the United States, which burned over about 5,900,000 acres and caused a damage of approximately $7,000,000.

Revised estimates place the amount of standing merchantable timber in the United States at approximately 2,767 billion board feet. Of this amount 1,464 billion board feet, or 53 per cent. of the total, is in California, Washington, Oregon, Idaho, and Montana.

During the past fiscal year there were constructed on the National Forests 227 miles of new road, 1,975 miles of trails, 2,124 miles of telephone line, 89 miles of fire lines, 81 lookout structures, 17 corrals and 202 water improvements.

Since the passage in 1912 of the act providing funds for land classification, and as a direct result of the classification work, a total of 13,477,781 acres has been eliminated from the National Forests. This includes an elimination of approximately 5,800,000 acres of land from the Chugach National Forest in Alaska, which embraced lands of low value for any purpose other than mining.

MAE MARSH AT THE HIPPODROME TODAY

Mae Marsh proved her willingness to labor in the cause of art recently when she learned to play a violin and to dive into the water from a great height for the express purpose of appearing to advantage in the new Triangle-Fine Arts photoplay "The Wharf Rat," to be shown at the Hippodrome today.

TODAY AT THE PARAMOUNT

Viola Dana, dainty little star of Edison's five-part feature "The Cossack Whip;" scheduled for screening at the Paramount Theatre today, was celebrated as a dancing soubrette before the Edison management persuaded hed to desert the footlights for the camera. This training stands her in good stead in this latest film success, as the leading role demanded an actress of emotional power who could dance the most difficult Russian figures.

HUGHES TO BE PRESIDENT

New York, Jan. 12.—Charles E. Hughes, late republican candidate for president of the United States, is slated for election to the presidency of the New York State Bar Association at the annual meeting of the association which began its sessions today in Brooklyn. Mr. Hughes was unanimously selected for the honor by the nominating committee, of which Alton B. Parker, one-time democratic candidate for president of the United States, is the chairman. The nomination is equivalent to election.

APPEAL STAYS EXECUTION

Huntsville, Ala., Jan. 12.—This was the day originally set by the court for the execution of David B. Overton, former clerk of the Madison county circuit court, whose recent sensational trial resulted in his conviction and sentence to death for the murder of Probate Judge William T. Lawler, his political opponent. An appeal taken by counsel for the convicted man has served to stay the execution and it will probably be several months before the final disposal of the case.

WHITE TEMPLPE
LADIES' AID

The Ladies' Aid society of the White Temple was delightfully entertained at the home of Mrs. George R. Lindsay, 527 Third street, yesterday afternoon.

There was a business meeting during which plans of the society for the next year were discussed and the following officers were elected:

President—Mrs. A. J. Fisher.
Secretary—Mrs. W. H. Cox.
Treasurer—Mrs. H. J. Luders.

After the business meeting refreshments were served by the hostess and a general good time enjoyed. Those present were: Mrs. H. J. Luders, Mrs. Lena Green, Mrs. A. J. Fisher, Mrs. J. C. Knight, Mrs. W. H. Cox, Mrs. R. N. Merrill, Mrs. H. C. Babcock, Mrs. Wood, Mrs. Estey, Mrs. N. H. Glassford, Mrs. Bayer, Mrs. R. C. Lindsay, Mrs. G. R. Lindsay, Miss Letitia Lindsay and Master John Epsey Merrill.

BOOKLOVERS STUDY
"EL GRAN GALEOTO"

The second act of Echegaray's "El Gran Galeoto" was the subject of study for the Booklovers who met yesterday afternoon at the Woman's Club for that purpose.

The drama, which is modern both in its tone and in its technique, is proving to be one of the most interesting in the course of the club's study of Spanish literature. The last act will be taken up at the meeting of next week.

RECEPTION TO
BERNHARDT

One of the most interesting social events which is to take place in Florida in the next week is the reception which is to be tendered to Mme. Sarah Bernhardt next Wednesday in Jacksonville from four to six at the Hotel Seminole.

In the receiving line will be Madame Bernhardt, Mrs. James W. Spratt, Mrs. Raymond C. Turck, Mrs. J. R. Tysen, Mrs. J. Dobbin Holmes and Mrs. Arthur G. Cummer.

The public has been invited to the reception to meet the divine Sarah, who is again making her farewell tour to America and whose age and crippled condition has not sufficed to quench either her remarkable spirit or the dramatic values of her wonderful speaking voice.

It is not known how long Mme. Bernhardt is to be in Florida.

LARKINS'
WOMAN'S CLUB

The meeting on Wednesday of the Woman's Club of Larkin was one of more than usual interest, made so by the presence of several visitors who later all became members.

Mrs. Kirk Munroe was accompanied by Mrs. Florence Haden and Miss Olive Callahan of Cocoanut Grove, both of whom applied for membership. Mrs. Graham, a newcomer to Larkin also was admitted.

Mrs. McKain was hostess of the day in the place of Mrs. McEldowney who will serve next week.

MUSICAL
CLASS

The Children's department of the Miami Musical Club will have their second rehearsal for the children's opera, "Pinafore" to be produced by A. F. Koerner at the Woman's Club auditorium this morning at nine-forty five. All the children are expected to be present at this meeting.

OUTLINES
STUDY COURSE

The department of Literature of the General Federation of Women's Clubs are offering their most reecnt lists of outlines of courses for club use. This list is of particular interest to the many new clubs that are being formed right here in Dade county and are perhaps at a loss for the right ways of starting in their work.

The complete list is as follows:

"The Immigrant as Seen through His Own Literature." "A List of 250 Children's Books," "A Study of Short Stories." "Women in Poetry." "Play and Story." "A Study of 19th Century Poetry." The above are ten cents each. Besides these, the following will be sent for postage—one cent. "Present Day Topics and Tendencies," "The American Mind." "Reading List of 20th Century English and American Authors." "How to Prepare a Club Topic." "Latin America." "Study of American Literature since 1870, to illustrate American Character and Ideals" (ready in January), "Study of Drama, based on one play, and Plans for Community Plays" (ready in March) "How to Study Folk Lore and Traditions with view to Pageantry and the Stimulation of Civic Spirit."

This department expects to issue, semi-annually, reading lists of current literature, selected from the point of view created by the homogeneous character of the work of organized women. Mrs. True Worthy White, 122 Appleton St. Arlington Heights, Mass., is the new chairman of Literature, to whom application may be made for the above helps to club study. Born of a family of teachers and preachers from pioneer days, she has also been a teacher, a lecturer, and a writer for such magazines as the Atlantic Monthly, The Outlook, The New England Magazine, Home Progress and many others. She also knows the distinctive character of club work through active share in the Massachusetts Federation, the Boston Women's City Club, and Suffrage work.

CURRENT EVENTS SOCIETY
AT MIAMI HIGH SCHOOL

Friday afternoon the E. Q. B. Current Events Society of the Miami High school enjoyed a program which was a variation from the usual one. It took the form of the following interesting program:

Current Events—Wilbur Lofton.
Short account of Wagner's life—Worth Munroe.
Life of Vierdi—Lillian Larson.
Story of the Opera Rigoletto—Karl Schwartz.
Quartette from Rigoletto— (Victrola)—Gladys Cooper.
Sketch of McComack's life—Ada Mae Adams.
"I Hear You Calling—(Sung by McComack on the victrola) — Clare Shepard.
Little Mother O' Mine—From tales of Hoffman— (Victrola) — Valeria Randle.

HIGH SCHOOL CLUB
CURRENT EVENTS TOPICS

The program yesterday for the Current Events Club of Miami High school was as follows:

"Report on the present situation of the sale of the Danish West Indies"—Kathryn Gibbons.
"Current topics"—Annie Fay Albritton.
"Motor Boating to Florida from Travel Magazine"—Chas. Morgan.
"Topics in brief"—Miss Beckwith.

TRINITY
GUILD

The Guild of the Trinity Episcopal church will hold a cake sale all day today at Elbre's pharmacy. All who are to donate cake and candy for this are asked to bring it to the drug store after nine o'clock.

HOME
ECONOMICS CLASS

The Home Economics class of the Woman's Club will have its regular meeting this afternoon. The class is studying textiles.

CONFERRED RANK
OF WOOD GATHERER

Minnehaha Camp Fire girls met with their guardian, Mrs. Davis last night with Mrs. Hicks Allen as the guest of honor, and awarded the first rank of wood gatherer to Miss Marjorie Sulzner.

After the meeting the girls held an outdoor camp in city park opposite Mrs. Davis' house, and built a fire where they roasted weinnies and had a very pleasant time.

Those present were Mr. and Mrs. G. R. Davis, Mrs. Hicks Allen, Miss Marion Davis, Miss Norma Davis, Miss Marion Robbins, Miss Mary Aston, Miss Marie Beritwisch, Miss Marjorie Sulzner and Miss Nina McAdams.

The Brazilian state of Bahia produces one-third of the world's cocoa and as much tobacco as all of Cuba.

Personal Mention

Jack Wilson of 1116 Fifteenth street is expecting his mother and sister from Canada soon to spend the season.

Mrs. D. D. Williams, of Chicago, is in the city for a stay of several weeks, the guest of her sister, Mrs. C. E. Nelson.

William H. Beardsley, and Wm. R. Kenan, who have been in Miami several days, have gone to Palm Beach for a few days.

Dr. C. J. Wallace of Oklahoma City, one of America's leading musical instructors and composers, has arrived in Miami and probably will make his home here. He will have charge of the music in the First Baptist church and will probably open a conservatory of music here.

TAG DAY
SOCIAL

A tag day social will be held by the Miami Naval Division at the rooms of the Germania Club Monday night, Jan. 15th. All who have signed applications are urged to attend and bring friends interested in the organization.

While sufficient names have been secured to perfect the organization it is desired to add a few more in order to fill up the different units allowed.

The organizers hope that by the time the division is ready to be sworn in there will be enough applicants to make up a full deck division and also an aeronautic squad.

Efforts are being made to obtain speakers of prominence for the meeting and to insure in other ways its unqualified success.

COLD WEATHER DAMAGES CROP

Mercury Drops and Tourists Shiver—Cold Wave Over All the United States

Frost yesterday caused some damage to tender vegetation in the neighborhood of Miami. It came as a surprise to everyone including the weather bureau, for temperature in the fifties was expected and announced.

Only some localities were visited, however, and the damage was by no means general. But instances were reported of farms in certain unprotected spots where the damage was fifty per cent.

The mercury in Miami fell twenty five degrees in the twenty four hours ending at six o'clock yesterday morning.

Freezing temperatures prevailed in the northeastern part of Florida and were also reported from the Eustis section, and frost occurred as far south as Miami.

The cold wave effected the entire country east of the Mississippi river and there were marked temperature falls during the twenty four hours up to seven o'clock yesterday morning throughout the Atlantic coast states, especially in New England.

At Eastport, Me., the temperature fell 42 degrees in 24 hours ending at seven o'clock a. m., reaching a minimum of two degrees below zero. At Boston at 7 a. m. was four degrees above zero, at New York eight, at Atlantic City ten and at Raleigh, N. C., eighteen.

Temperatures have risen rapidly in the plain states and Texas, but much colder weather has again overspread the northern Rocky mountain region. Severely cold weather also prevails in the western plateau region. The temperature yesterday morning at Winnemucca, Nev., was fourteen degrees below zero.

A disturbance was central Friday morning over Oklahoma and was moving eastward. It will cause a rapid reaction as to normal temperatures in this section and by noon today the usual Miami weather will prevail, according to announcement by the weather bureau.

When the mercury dropped Miamians and tourists at the hotels pulled up the covers and shut their windows for after the warm weather of the past month the change in temperature made many shiver.

This morning at most of the hotels fires were lighted in the grates and the guests gathered around them, but as the weather moderated later in the day the different attractions in the city had their full quota of patrons.

There were many venturesome ones who started out on fishing trips, but the ocean was so rough that the majority returned.

To protect babies from drafts when being carried in automobiles, a miniature folding top has been invented.

Street traffic in San Francisco is regulated by electric semaphores.

W. C. T. U. HEARD TALK

On Various Subjects From Prominent Writer and Speaker, on Mother's Day

Mother's Day was celebrated at the meeting of the W. C. T. U. yesterday afternoon by a special program and an especially large audience. The meeting was under the charge of Mrs. S. Bobo Dean who opened the meeting with scripture reading. Mrs. A. L. Andrus gave the invocation. Mrs. George Bolles and Mrs. Eugene Romfh both sang most delightfully.

Mrs. Dean then introduced the speaker of the afternoon, Mrs. Corrilla Bannister. Mrs. Bannister is the author of several books, a newspaper woman and a prominent speaker.

Mrs. Bannister began her address, which covered many subjects in which the W. C. T. U. is interested and which was made to mothers rather than dwelling on the subject of mothers, with the statement that it will take four hundred years to create a race with the power to cease vibrating to the thoughts of their ancestors. There can be an epidemic of thought as well as an epidemic of disease. The mothers of America should be taught the value of mind control. The government spends hundreds of dollars for the control of cut worms, and other insect dangers to plant life, but not ten cents for the teaching of mothers how to breed a better class of men. Thoughts are contagious, she said. They have a force which react on others and it requires great power not also to be acted on by them.

In the course of her address, which lasted for an hour and a half, Mrs. Bannister launched out an attack on the government for permitting the growth of tobacco for the making of cigars, cigarettes and snuff and dwelt on the universal prevalence of snuff dipping not only among the poorer classes of the south but all over the country. She made statements against the Roman Catholics and the Jews for what she said were their relations with the liquor traffic, as well as the domination by the same traffic of the republican and democratic parties.

Her line of argument may be gathered from her statements concerning the Roman Catholic religious orders which were, according to the speaker, banished from France, because they distilled liquors and paid a duty to the pope. Mrs. Bannister also felt strongly concerning the six thousand Protestant girls which she alleged were confined in the houses of the Good Shepherd throughout the country. "Placed there without judge or jury or trial. The issues of preparedness were creeping into the papers only because the pope wanted the United States to go to war with Mexico. The high cost of living, she asserted, was a result of this. The United States will have to take sides with Germany in the war, because the pope favors Germany."

And Mrs. Bannister concluded her talk of an hour and a half with a vehement resume of her previous strictures against the liquor traffic and the pope, on which subjects she seems to be considerably agitated.

Quite a number of people remained through the entire address.

DARING GIRL BIG FEATURE

Miss Dorothy Connell Has Had But One Fall Since Riding in Motordome

If the attendance at the Con. T. Kennedy shows is any criterian, then the attractions certainly meet with the approval of Miami's outdoor amusement devotees. The crowds have been big every afternoon and evening, and have constantly increased. The riding devices have been well patronized, and many patrons are to be found at the concession stands.

Miss Dorothy Connell, the pretty little lady who rides in the Autodrome of the Kennedy shows, is noted for her daring, and never has been known to take a bluff. She is not very big, nor very heavy, but what she lacks in weight she more than makes up on nerve.

This is the first season that she has been riding in a motordrome, and today she is recognized as the peer of all women riders. She does not know what the word fear means, and is always willing and ready to try anything she sees anyone else do. This is the reason for her success, and at times it is necessary to absolutely forbid her to do certain things in the Autodrome, for fear she might be killed or seriously injured.

Last season she was one of the dancing and singing girls of the Russian theatre, then with the Kennedy shows, and was quite a favorite. During the winter season, she was in Jacksonville, Fla., where the Kennedy shows wintered, and asked for a chance to ride a motorcycle in the drome. At first Manager Will G. Jones was reluctant to have her attempt the hazardous work, but she was so persistant that he finally gave her a trial. In a few weeks she had no trouble riding on the incline track, and was anxious to try the straight wall. She was admonished not to do so, but one afternoon while at practice she shouted, "here I go," and true to her word, she put on more power and steered for the straight wall. She circled around a number of times and finally started down again. Her experience caused her to fall, and while she was scratched and badly shaken up, escaped without much harm being done.

That was her first and only fall, and now she thinks no more of doing tricks on a straight wall, than the reader does of sitting in a rocking chair at home. Her iron nerve and determination overcame all obstacles and made her the leader among women of her class.

FEW ENLISTMENTS FROM MAGIC CITY

Everybody in Miami is so busy that a government recruiting station here is more or less of a failure, according to the opinion of the several young men assigned by the war department to the recently established station here.

So far in the several weeks the office on the third floor of the federal building has been open, five recruits have enlisted and been sent to the recruiting station at Columbus, Ohio, and despite that they have combed the town from one end to the other, the recruiting force has found no one willing to enlist for the past week or ten days.

WHITE TEMPLPE LADIES' AID

The Ladies' Aid society of the White Temple was delightfully entertained at the home of Mrs. George R. Lindsay, 527 Third street, yesterday afternoon.

There was a business meeting during which plans of the society for the next year were discussed and the following officers were elected:

President—Mrs. A. J. Fisher.
Secretary—Mrs. W. H. Cox.
Treasurer—Mrs. H. J. Luders.

After the business meeting refreshments were served by the hostess and a general good time enjoyed. Those present were: Mrs. H. J. Luders, Mrs. Lena Green, Mrs. A. J. Fisher, Mrs. J. C. Knight, Mrs. W. H. Cox, Mrs. R. N. Merrill, Mrs. H. C. Babcock, Mrs. Wood, Mrs. Estey, Mrs. N. H. Glassford, Mrs. Bayer, Mrs. R. C. Lindsay, Mrs. G. R. Lindsay, Miss Letitia Lindsay and Master John Epsey Merrill.

BOOKLOVERS STUDY "EL GRAN GALEOTO"

The second act of Echegaray's "El Gran Galeoto" was the subject of study for the Booklovers who met yesterday afternoon at the Woman's Club for that purpose.

The drama, which is modern both in its tone and in its technique, is proving to be one of the most interesting in the course of the club's study of Spanish literature. The last act will be taken up at the meeting of next week.

RECEPTION TO BERNHARDT

One of the most interesting social events which is to take place in Florida in the next week is the reception which is to be tendered to Mme. Sarah Bernhardt next Wednesday in Jacksonville from four to six at the Hotel Seminole.

In the receiving line will be Madame Bernhardt, Mrs. James W. Spratt, Mrs. Raymond C. Turck, Mrs. J. R. Tysen, Mrs. J. Dobbin Holmes and Mrs. Arthur G. Cummer.

The public has been invited to the reception to meet the divine Sarah, who is again making her farewell tour to America and whose age and crippled condition has not sufficed to quench either her remarkable spirit or the dramatic values of her wonderful speaking voice.

It is not known how long Mme. Bernhardt is to be in Florida.

LARKINS' WOMAN'S CLUB

The meeting on Wednesday of the Woman's Club of Larkin was one of more than usual interest, made so by the presence of several visitors who later all became members.

Mrs. Kirk Munroe was accompanied by Mrs. Florence Haden and Miss Olive Callahan of Cocoanut Grove, both of whom applied for membership. Mrs. Graham, a newcomer to Larkin also was admitted.

Mrs. McKain was hostess of the day in the place of Mrs. McEldowney who will serve next week.

MUSICAL CLASS

The Children's department of the Miami Musical Club will have their second rehearsal for the children's opera, "Pinafore" to be produced by A. F. Koerner at the Woman's Club auditorium this morning at nine-forty five. All the children are expected to be present at this meeting.

OUTLINES STUDY COURSE

The department of Literature of the General Federation of Women's Clubs are offering their most reecnt lists of outlines of courses for club use. This list is of particular interest to the many new clubs that are being formed right here in Dade county and are perhaps at a loss for the right ways of starting in their work.

The complete list is as follows:

"The Immigrant as Seen through His Own Literature." "A List of 250 Children's Books," "A Study of Short Stories." "Women in Poetry." "Play and Story." "A Study of 19th Century Poetry." The above are ten cents each. Besides these, the following will be sent for postage—one cent. "Present Day Topics and Tendencies," "The American Mind." "Reading List of 20th Century English and American Authors." "How to Prepare a Club Topic." "Latin America." "Study of American Literature since 1870, to illustrate American Character and Ideals" (ready in January), "Study of Drama, based on one play, and Plans for Community Plays" (ready in March) "How to Study Folk Lore and Traditions with view to Pageantry and the Stimulation of Civic Spirit."

This department expects to issue, semi-annually, reading lists of current literature, selected from the point of view created by the homogeneous character of the work of organized women. Mrs. True Worthy White, 122 Appleton St. Arlington Heights, Mass., is the new chairman of Literature, to whom application may be made for the above helps to club study. Born of a family of teachers and preachers from pioneer days, she has also been a teacher, a lecturer, and a writer for such magazines as the Atlantic Monthly, The Outlook, The New England Magazine, Home Progress and many others. She also knows the distinctive character of club work through active share in the Massachusetts Federation, the Boston Women's City Club, and Suffrage work.

CURRENT EVENTS SOCIETY AT MIAMI HIGH SCHOOL

Friday afternoon the E. Q. B. Current Events Society of the Miami High school enjoyed a program which was a variation from the usual one. It took the form of the following interesting program:

Current Events—Wilbur Lofton.
Short account of Wagner's life—Worth Munroe.
Life of Vierdi—Lillian Larson.
Story of the Opera Rigoletto—Karl Schwartz.
Quartette from Rigoletto— (Victrola)—Gladys Cooper.
Sketch of McComack's life—Ada Mae Adams.
"I Hear You Calling—(Sung by McComack on the victrola) — Clare Shepard.
Little Mother O' Mine—From tales of Hoffman— (Victrola) — Valeria Randle.

HIGH SCHOOL CLUB CURRENT EVENTS TOPICS

The program yesterday for the Current Events Club of Miami High school was as follows:

"Report on the present situation of the sale of the Danish West Indies"—Kathryn Gibbons.
"Current topics"—Annie Fay Albritton.
"Motor Boating to Florida from Travel Magazine"—Chas. Morgan.
"Topics in brief"—Miss Beckwith.

TRINITY GUILD

The Guild of the Trinity Episcopal church will hold a cake sale all day today at Elbre's pharmacy. All who are to donate cake and candy for this are asked to bring it to the drug store after nine o'clock.

HOME ECONOMICS CLASS

The Home Economics class of the Woman's Club will have its regular meeting this afternoon. The class is studying textiles.

CONFERRED RANK OF WOOD GATHERER

Minnehaha Camp Fire girls met with their guardian, Mrs. Davis last night with Mrs. Hicks Allen as the guest of honor, and awarded the first rank of wood gatherer to Miss Marjorie Sulzner.

After the meeting the girls held an outdoor camp in city park opposite Mrs. Davis' house, and built a fire where they roasted weinnies and had a very pleasant time.

Those present were Mr. and Mrs. G. R. Davis, Mrs. Hicks Allen, Miss Marion Davis, Miss Norma Davis, Miss Marion Robbins, Miss Mary Aston, Miss Marie Beritwisch, Miss Marjorie Sulzner and Miss Nina McAdams.

The Brazilian state of Bahia produces one-third of the world's cocoa and as much tobacco as all of Cuba.

Personal Mention

Jack Wilson of 1116 Fifteenth street is expecting his mother and sister from Canada soon to spend the season.

Mrs. D. D. Williams, of Chicago, is in the city for a stay of several weeks, the guest of her sister, Mrs. C. E. Nelson.

William H. Beardsley, and Wm. R. Kcnan, who have been in Miami several days, have gone to Palm Beach for a few days.

Dr. C. J. Wallace of Oklahoma City, one of America's leading musical instructors and composers, has arrived in Miami and probably will make his home here. He will have charge of the music in the First Baptist church and will probably open a conservatory of music here.

TAG DAY SOCIAL

A tag day social will be held by the Miami Naval Division at the rooms of the Germania Club Monday night, Jan. 15th. All who have signed applications are urged to attend and bring friends interested in the organization.

While sufficient names have been secured to perfect the organization it is desired to add a few more in order to fill up the different units allowed.

The organizers hope that by the time the division is ready to be sworn in there will be enough applicants to make up a full deck division and also an aeronautic squad.

Efforts are being made to obtain speakers of prominence for the meeting and to insure in other ways its unqualified success.

COLD WEATHER DAMAGES CROP

Mercury Drops and Tourists Shiver—Cold Wave Over All the United States

Frost yesterday caused some damage to tender vegetation in the neighborhood of Miami. It came as a surprise to everyone including the weather bureau, for temperature in the fifties was expected and announced.

Only some localities were visited, however, and the damage was by no means general. But instances were reported of farms in certain unprotected spots where the damage was fifty per cent.

The mercury in Miami fell twenty five degrees in the twenty four hours ending at six o'clock yesterday morning.

Freezing temperatures prevailed in the northeastern part of Florida and were also reported from the Eustis section, and frost occurred as far south as Miami.

The cold wave effected the entire country east of the Mississippi river and there were marked temperature falls during the twenty four hours up to seven o'clock yesterday morning throughout the Atlantic coast states, especially in New England.

At Eastport, Me., the temperature fell 42 degrees in 24 hours ending at seven o'clock a. m., reaching a minimum of two degrees below zero. At Boston at 7 a. m. was four degrees above zero, at New York eight, at Atlantic City ten and at Raleigh, N. C., eighteen.

Temperatures have risen rapidly in the plain states and Texas, but much colder weather has again overspread the northern Rocky mountain region. Severely cold weather also prevails in the western plateau region. The temperature yesterday morning at Winnemucca, Nev., was fourteen degrees below zero.

A disturbance was central Friday morning over Oklahoma and was moving eastward. It will cause a rapid reaction as to normal temperatures in this section and by noon today the usual Miami weather will prevail, according to announcement by the weather bureau.

When the mercury dropped Miamians and tourists at the hotels pulled up the covers and shut their windows for after the warm weather of the past month the change in temperature made many shiver.

This morning at most of the hotels fires were lighted in the grates and the guests gathered around them, but as the weather moderated later in the day the different attractions in the city had their full quota of patrons.

There were many venturesome ones who started out on fishing trips, but the ocean was so rough that the majority returned.

To protect babies from drafts when being carried in automobiles, a miniature folding top has been invented.

W. C. T. U. HEARD TALK

On Various Subjects From Prominent Writer and Speaker, on Mother's Day

Mother's Day was celebrated at the meeting of the W. C. T. U. yesterday afternoon by a special program and an especially large audience. The meeting was under the charge of Mrs. S. Bobo Dean who opened the meeting with scripture reading. Mrs. A. L. Andrus gave the invocation. Mrs. George Bolles and Mrs. Eugene Romfh both sang most delightfully.

Mrs. Dean then introduced the speaker of the afternoon, Mrs. Corrilla Bannister. Mrs. Bannister is the author of several books, a newspaper woman and a prominent speaker.

Mrs. Bannister began her address, which covered many subjects in which the W. C. T. U. is interested and which was made to mothers rather than dwelling on the subject of mothers, with the statement that it will take four hundred years to create a race with the power to cease vibrating to the thoughts of their ancestors. There can be an epidemic of thought as well as an epidemic of disease. The mothers of America should be taught the value of mind control. The government spends hundreds of dollars for the control of cut worms, and other insect dangers to plant life, but not ten cents for the teaching of mothers how to breed a better class of men. Thoughts are contagious, she said. They have a force which react on others and it requires great power not also to be acted on by them.

WIPING OUT RELIGIOUS PUBLICATIONS

With the insidious and gradual abandonment of the idea of a free press in this country, is coming additional restrictions on publications of all kinds, but principally upon the periodicals.

Time was when the nation regarded the press as one of its greatest educational activities. It attributed the growth of intelligence largely to the circulation of newspapers and other publications, and as a means to aid in the spread of intelligence it recognized the necessity of making the circulation of all publications as easy for publishers as possible. The government has assumed that periodicals returned in general information a value to the country which outweighed the difference in cost of transportation of publications and what they paid for mail service.

All that is now being done away with. There is now before the rules committee of the house an amendment establishing the zone system for postal charges on newspapers and magazines, as a rider to the annual postal appropriation bill. The purpose of this rider is to change the manner of charging for the use of the mails from the old bulk system, in which periodicals are now carried at one cent a pound, for a system, for weekly and monthly publications, that will vary in cost from one cent to six cents a pound, according to the distance carried.

The secular weeklies and magazines can probably take care of themselves, and The Herald's purpose in calling attention to the proposed law is to warn readers of religious publications that they stand in imminent danger of being deprived of their church papers, if this law should go into effect.

The Outlook, probably one of the most prosperous of the religious publications of the country, estimates that this law would add fifty thousand dollars to the expenses of its publication each year. Other religious journals not so fortunate in a worldly sense as the Outlook, will be struck a corresponding blow, one which hundreds of them will not be able to withstand. Very many of them are now struggling with the extremely high cost of paper and if the postal department is authorized to impose this additional tax upon them, hundreds of the smaller religious publications of the country will be forced to suspend.

If there were any real necessity for the revenues to be derived from thus inordinately taxing newspaper and magazines, there would not be so much to say, but as a matter of fact, as now conducted, the postal department is showing a profit in its dealings with the people, and there appears no great reason for this attempt to increase its revenues. No department of government should exact from the people a dollar more than the cost of its maintenance.

Those who are interested in religious journal, either as readers or otherwise, and who do not want these publications to cease, would better get into quick communication with such congressmen as they can reach and protest against the adoption of the proposed rider to the postal appropriation bill, and there is not a moment to lose.

A NEWSPAPER DID IT

And now it seems that while the governor was probably strictly within the law and his rights when he removed General Foster from the position of adjutant general of the state, he slipped up on the law in appointing the Mr. Christian of Tallahassee, who is said to be a very estimable hotel keeper of that city and a very efficient watchmaker, but without military experience.

The Tampa Times takes down its copy of the revised statutes of Florida and with an accusing finger points the governor to a paragraph in section 672 which reads as follows:

> No person shall be appointed as chief officer of any staff corps or department who has not held commission in the army or navy of the United States, the Confederate states or in the organized militia of this state for at least two years.

And the Times asserts that the excellent Mr. Christian cannot qualify under the law, as he has had no military education and has never held any of the commissions required by the statute.

It would seem that the attorney who advised the governor, and the attorney general, who is said to have been consulted, that he had a right to remove the adjutant general at his pleasure, would also have pointed out to the governor the law governing any other appointment for the office that he might desire to make.

They ought to have pointed out to his excellency that being the boyhood friend and schoolmate of a governor is not the qualification required by the law of Florida for one whom under the governor, is to head the militia of the state.

But perhaps it required a newspaper to point of the mistakes of the governor's astute advisers.

THAT REPLY

While The Herald has, as yet, been unable to print the full text of the reply of the entente allies, to the president's peace note, yet enough of that important document has come over the wires to form something of a judgment of the effect of the reply.

The Associated Press resume of the note, which covers more than two thousand words, gives what must be the salient points, and they leave no room for doubt that the allies propose to carry on the war to a definite conclusion, and there is some room for wonder where the ever hopeful officials of Washington, whose opinions on the bright side of things are so often quoted in the dispatches, find ground for believing that the door has been left open for the president to renew his offers, as they claim to believe. If it appears anywhere, it is in some obscure passage not yet reported to the smaller papers.

Taking the face of it, the entente allies review the causes which brought them into the war, naturally blaming Austria and Germany for beginning the struggle, recounting the outrages committed in the course of the war, and end by plainly stating that the war must go on until the aims of the entente are accomplished which, in three words are, reparation, restitution and guarantees for the future.

...the military situation as it now is, and with the attitude of the belligerents what it purports to be in their communications, there seems no compromise, for the present, at least.

And, as a matter of fact, any peace which did not include the claims of the entente, restitution, reparation and guarantees, the very things the central powers do not propose to grant, or rather have not proposed to discuss, would be more disastrous to Europe and to the world than would the continuation of the war to some definite conclusion. A suspension, now, without these principles secured would merely give Germany time to re-form, re-equip and re-construct her armies for the purpose of taking advantage of the first excuse offered to renew the strife.

We may sincerely hope that the president will adhere to his latest announcement that he will not send another note, that he will not again interfere, until the time actually arrives when this country may be of some real use in bringing about a peace.

It will not be brought by negotiations, except such negotiations as are carried on at the point of the bayonet and at the mouths of cannon.

SHOWS IN THE BLOOD

Good democratic blood shows in the action of Richard F. Cleveland, son of Grover Cleveland, twice president of the United States, and a democrat.

For years there has been growing up at Princeton a system of exclusive clubs for students that have been cultivating a cast system not at all in accordance with the principles of democracy, and which was having its effect on the institution itself.

Several attempts have been made in recent years, either to widen the scope of the existing clubs so as to make all students eligible, or to establish a club for all in which distinctions of social position or of wealth would not find a place.

They were not successful until young Cleveland, evidently a chip of the old block, started a revolution in the sophomore class which brought about the formation of a general university club to which every undergraduate is eligible no matter what the form and size of his own or his father's pocket book, or whether he comes from a line of recognized bluebloods, or not.

Speaking of the new club, President Hibben, who with the faculty has warmly welcomed the innovation, said,

"This will be a club where any student in the university will be welcome. I believe that with men of the type of young Cleveland in it, the University Club will grow and eventually lead to the abolition of the present system. The central defect of the present system is that a few men are left out and forced to consider themselves members of a sort of down-and-out club. They take it as a great humiliation, and it affects their whole university career. I have known instances of men leaving college because they failed to make a club."

Good for Richard Cleveland and his fellow democrats in Princeton.

The Miami papers do an injustice to St. Augustine when they accuse this city of "knocking" Miami. There may possibly be one or two people who now and then through selfish interests tell visitors who are planning to go further south that it is no use to go to Palm Beach or Miami because those resorts are already crowded to capacity, but we believe and hope those cases are rare. St. Augustine believes in a policy of "live and let live" realizing that there is plenty of business for all Florida towns and that the tourist has a right to "cruise" around as he pleases. Miami has plenty of room left for those who want to see the Magic City of the state.—St. Augustine Record. And when the editor of the Record assures us the practice is not prevalent in St. Augustine, The Herald believes the statement, implicitly.

A world wide character, a peculiarly American product, passed from the scene when "Buffalo Bill" Cody departed for other fields of exploration.

From the awful volume of smoke rolling from committee rooms at the nation's capitol, we are constrained to believe that there is a blaze, somewhere.

No, Prunella, although we learn that Mazie Colbert was a model, we can not really say that she was a model girl.

Too bad, but the governor does not seem to be willing to take the advice of the Tampa Tribune.

If the Chicago Tribune is so very anxious to have the negro vote in the south, why does it not arrange to pay the poll taxes of those who refuse to pay them and are, thereby, debarred from the voting privilege?

GENERAL JOFFRE.

General Joseph Joffre, in whose honor the title and rank of a marshal of France has been revived on the occasion of his retirement from the chief command of the French armies, celebrated his sixty-fifth birthday anniversary yesterday, having been born January 12, 1852, in the Pyrenes-Orientales. General Joffre's retirement marks the close of an active military career that has extended over a period of more than forty years. At the outbreak of the present war he was filling the position of Chief of Staff. Previous to that time he had his greatest reputation as a military engineer. Before the war was many days old, however, he had given evidence of his mastership of all branches of military science. It was due to General Joffre's genius of strategy, more than to any other one factor that entered into the situation that the Germans were deflected from their march on Paris and then driven back toward the frontier.

Washington Post.

Senator Owen's proposal to take from the United States supreme court the power to pass upon the constitutionality of acts of congress may appeal to persons who are unfamiliar with the structure of the government, but it will not make headway among those who regard stability as one of the chief requirements of a republic. The supreme court could not avoid the exercise of the power to pass upon the constitutionality of acts of congress. It would be violating its duty if it should fail to exercise this power. The constitution is the only law enacted by all the people. A law of congress is enacted by the people's representatives. These representatives derive their power to act through the law made by the people, and their powers are defined in this fundamental law. If they exceed their powers, they are not representatives of the will of the people but are mere pretenders or usurpers.

Washington Post.

It is essential that the new Federal rural credits system should have the confidence of the farmers of the country. Since the success of the system depends in a very large measure upon the voluntary associations which are to be formed by the farmers, it is necessary that the groups of men in the rural sections should understand at the outset that there is to be no discrimination resulting from the exercise of political influence. If farmers should become convinced that their neighbors of different political faith were able to obtain credit more easily thereby, the result would be a slow undermining of the whole system. Considering these circumstances, it is commendable that the Federal farm loan board, while it has found that many politicians are anxious to use influence in bringing about the appointment of the 60 directors of the twelve regional banks, nevertheless will fill the places solely on the basis of merit. There are nearly 200 good places to be filled, and it is reassuring to note that these jobs will not be handed out as political plums. It is realized that the whole future of the farm loan system depends on the personnel of the banks. Every senator and representative who has discussed the matter with any number of the federal board has accepted the nonpolitical policy as the proper one, and while the pressure on them for places is tremendous, they heartily agree that merit alone must be the test.

New York Herald.

The tendency of the individual is not toward the jealous maintenance of his personal rights. The mastering impulse of the busybody is to impose his convictions upon everybody. The busybodies make up in clamor what they lack in numbers and deafen nations no less than communities by their calls upon high heaven to witness that they only are respectable and that the acceptance of their notions is essential to the salvation of the state.

Humanity moves in its own way slowly but surely along the lines of betterment. But the sifting process of the ages agrees in no wise with the hop-skip-and-a-jump mentality of the busybodies. In consequence is their demand that the law step in and reconstruct mankind over night in the mould prescribed by themselves. Of course, the law does nothing of the kind. Timorous legislators and "pussy-footed" executives yield to the threatening demands of organized busybodies, and occasionally an inspired ass with a certificate of election in his pocket originates vexatious legislation. But the annoyance comes principally from unofficial busybodies who promote legislation designed to make the common herd conform to their ideas. The consequence is that the law becomes ridiculous, or oppressive, or the instrument of corruption. From the statute making mandatory the length of bed sheets in hotels the gamut runs to the vicious so-called Mann act, with various commissions, censorships and preposterous police regulations scattered in between. The necessary number of public servants is swollen by swarms of official parasites, who are taken away from the producing class and who find in oppression a justification for their continuance on the public salary roll. It is time to call a halt.

What a Trust Company Is Not

An *individual*, no matter how many times he has acted as executor, can hardly be expected to offer the equipment and experience of a *Trust Company*. The Fidelity Bank & Trust Company, for example, is—

—not sick,
—not out of town,
—not busy with personal affairs,
—not tempted to make use of the estate for personal gain,
—not without fire and burglar proof vaults,
—not wanting in ample financial resources.

Individuals seldom have much executorship experience.

We have a department devoted to business of this nature, and are equipped to handle it to the best interest of the estate and to the satisfaction of the Courts.

FIRST MORTGAGE

Investment has particularly to do with SERVICE. A wise man said "Service is the insides of business."

Service means more than anything else in a Mortgage house. Service means that your first lien mortgage papers must be properly drawn; all taxes must be paid; your title must be perfect; interest must be collected promptly when due and sent you without charge; principal payments must be promptly remitted. SERVICE means a careful investigation and preservation of the lenders interests involved. MILLER SERVICE identifies first lien mortgage investment with all the safeguards.

GENERAL JOFFRE.

General Joseph Joffre, in whose honor the title and rank of a marshal of France has been revived on the occasion of his retirement from the chief command of the French armies, celebrated his sixty-fifth birthday anniversary yesterday, having been born January 12, 1852, in the Pyrenes-Orientales. General Joffre's retirement marks the close of an active military career that has extended over a period of more than forty years. At the outbreak of the present war he was filling the position of Chief of Staff. Previous to that time he had his greatest reputation as a military engineer. Before the war was many days old, however, he had given evidence of his mastership of all branches of military science. It was due to General Joffre's genius of strategy, more than to any other one factor that entered into the situation that the Germans were deflected from their march on Paris and then driven back toward the frontier.

Washington Post.

Senator Owen's proposal to take from the United States supreme court the power to pass upon the constitutionality of acts of congress may appeal to persons who are unfamiliar with the structure of the government, but it will not make headway among those who regard stability as one of the chief requirements of a republic. The supreme court could not avoid the exercise of the power to pass upon the constitutionality of acts of congress. It would be violating its duty if it should fail to exercise this power. The constitution is the only law enacted by all the people. A law of congress is enacted by the people's representatives. These representatives derive their power to act through the law made by the people, and their powers are defined in this fundamental law. If they exceed their powers, they are not representatives of the will of the people but are mere pretenders or usurpers.

Washington Post.

It is essential that the new Federal rural credits system should have the confidence of the farmers of the country. Since the success of the system depends in a very large measure upon the voluntary associations which are to be formed by the farmers, it is necessary that the groups of men in the rural sections should understand at the outset that there is to be no discrimination resulting from the exercise of political influence. If farmers should become convinced that their neighbors of different political faith were able to obtain credit more easily thereby, the result would be a slow undermining of the whole system. Considering these circumstances, it is commendable that the Federal farm loan board, while it has found that many politicians are anxious to use influence in bringing about the appointment of the 60 directors of the twelve regional banks, nevertheless will fill the places solely on the basis of merit. There are nearly 200 good places to be filled, and it is reassuring to note that these jobs will not be handed out as political plums. It is realized that the whole future of the farm loan system depends on the personnel of the banks. Every senator and representative who has discussed the matter with any number of the federal board has accepted the nonpolitical policy as the proper one, and while the pressure on them for places is tremendous, they heartily agree that merit alone must be the test.

New York Herald.

The tendency of the individual is not toward the jealous maintenance of his personal rights. The mastering impulse of the busybody is to impose his convictions upon everybody. The busybodies make up in clamor what they lack in numbers and deafen nations no less than communities by their calls upon high heaven to witness that they only are respectable and that the acceptance of their notions is essential to the salvation of the state.

Humanity moves in its own way slowly but surely along the lines of betterment. But the sifting process of the ages agrees in no wise with the hop-skip-and-a-jump mentality of the busybodies. In consequence is their demand that the law step in and reconstruct mankind over night in the mould prescribed by themselves. Of course, the law does nothing of the kind. Timorous legislators and "pussy-footed" executives yield to the threatening demands of organized busybodies, and occasionally an inspired ass with a certificate of election in his pocket originates vexatious legislation. But the annoyance comes principally from unofficial busybodies who promote legislation designed to make the common herd conform to their ideas. The consequence is that the law becomes ridiculous, or oppressive, or the instrument of corruption. From the statute making mandatory the length of bed sheets in hotels the gamut runs to the vicious so-called Mann act, with various commissions, censorships and preposterous police regulations scattered in between. The necessary number of public servants is swollen by swarms of official parasites, who are taken away from the producing class and who find in oppression a justification for their continuance on the public salary roll. It is time to call a halt.

What a Trust Company Is Not

An *individual*, no matter how many times he has acted as executor, can hardly be expected to offer the equipment and experience of a *Trust Company*. The Fidelity Bank & Trust Company, for example, is—

—not sick,
—not out of town,
—not busy with personal affairs,
—not tempted to make use of the estate for personal gain,
—not without fire and burglar proof vaults,
—not wanting in ample financial resources.

Individuals seldom have much executorship experience.

We have a department devoted to business of this nature, and are equipped to handle it to the best interest of the estate and to the satisfaction of the Courts.

TRIAL SET FOR MURDERER OF REV. BOLTON

Circuit Court Will Begin Hearing Case Next Monday Morning

Clarence C. McKinney, the negro who murdered the Rev. James Bolton, at Cocoanut Grove, in December, last, will be tried for his life at the present term of the circuit court, the trial bebinning next week.

McKinney was indicted by the grand jury for murder in the first degree, yesterday morning, and when brought into court and arraigned entered a plea of not guilty.

The negro has retained Penney & Penney to defend him in his present trouble, and Mr. Penney was present in the court room when the indictment was read to the prisoner, by State's Attorney John C. Gramling, yesterday.

Judge Branning directed that general venire of eighteen jurors for civil cases as well as a special venire of fifty jurors, be drawn for the Bolton murder trial, which has been set for Monday morning.

McKinney had had trouble with his wife, and on account of threats made by him against the woman, a warrant was secured for his arrest. While the constable went to the negro's house to serve the warrant, McKinney left the place and fired four shots at the Rev. Dr. James Bolton, a retired white clergyman. The shooting took place in the Bolton yard where the aged minister was engaged in unhitching his horse.

The murderer was brought to the county jail in this city after having been shot but was not seriously wounded. He had entirely recovered from his injuries and appeared perfectly well when brought from his cell in the county jail to the court room, yesterday.

Today ,the case of J. S. Murphy against Griffing Brothers Company, will be heard in the circuit court, the jury having been selected in the case yesterday. Mr. Murphy seeks damages in the sum of $20,000 against the nursery firm which is alleged to have planted diseased nursery stock in Murphy's grove in the southern part of the county. The Griffing concern has a contract to plant young nursery stock between the other citrus trees on the Murhpy grove.

The grand jury also brought in an indictment yesterday against Lee Mitchell, a negro, who is alleged to have stabbed Charles Edwards, another negro, in colored town, last Sunday. Mitchell is at large.

GEORGIA GOVERNOR URGES FOUR STATES TO EXHIBIT SOILS

Florida is included in plans for the Southeastern Land Show to be held in Atlanta February 1 to 15.

The governor of Georgia has issued the following proclamation, of importance to the states interested:

"Whereas, the Southeastern Land Show has been organized under the auspices of the Georgia Chamber of Commerce in co-operation with progressive citizens of Georgia, Alabama, Florida and South Carolina, for the purpose of exhibiting the soil and its products and the mineral, forest and other resources of the southeast, to stimulate and encourage greater industrial development and the bringing into the southeast of investments and desirable settlers and arousing interest among our people for homegrown food crops and diversified agriculture; and

"Whereas, similar exhibitions have proved highly successful in the northwest and in California, and the exhibition of the Southeastern Land Show in Atlanta, February 1-15, promises large results for the upbuilding of the southeast;

"Therefore, I, N. E. Harris, governor of Georgia, do cordially suggest to the people from all portions of the United tSates to attend said Southeastern Land Show if practicable and to participate therein, and respectfully urge the people of Georgia to co-operate with the same heartily and cordially.

(Signed "N. E. Harris, Governor."

MUCH CHICKEN WITH OYSTERS AT HOMESTEAD

Banquet Under Chamber of Commerce Auspices—Miami Guests Present

The rally by the Homestead Chamber of Commerce at Homestead Thursday night, with a record-breaking banquet, was one of the most enjoyable ever participated in by the people of the south end of Dade county. Primarily it was for the benefit of the organization, the purpose being to create more interest in the work which it is calculated to do for the community and section.

Among the Miamians attending were S. M. Tatum, R. C. Perky and Judge and Mrs. Sanders. The Miamians returned home about two o'clock yesterday morning, in the chill of a rather cool night, but thoroughly delighted with all the events of the evening.

The banquet was served by an experienced caterer, and included an abundance of chicken, oysters in various styles, and all the salads and garnishments that one would expect in the most lavish feast.

Judge Sanders delivered a stirring address on the importance of standing by home industries and efforts, with special emphasis on the benefits possible by whole-hearted support of the Homestead Chamber of Commerce. The address was enthusiastically received.

Among the other speakers were Mr. Tatum and Mr. Perky of Miami, Col. H. S. Chubb, Rev. Fletcher, A. C. Grau, and R. B. Shallern. The banquet was presided over by S. E. Livingston most ably.

OWNS A SOUVENIR PRESENTED HIM BY LATE BUFFALO BILL

A souvenir personally presented by "Buffalo Bill" Cody is the valued possession of G. W. Blodgett of St. Petersburg.

It is an Indian weapon resembling a tomahawk, made from the horns of a bull, and was presented to Mr. Blodgett in 1895.

Referring to the souvenir, Mr. Blodgett says: "I was chief of polite of Saratoga Springs, N. Y., in 1895. Col. Cody played in that city with his big show. During the night performance he came to my office and said that his life had been threatened by a barber who had been discharged and driven off the show grounds. He said the man was regarded as desperate and had sworn to kill Cody. 'Buffalo Bill' wanted me to have the man arrested and said to me:

"I could have him handled or take care of him myself, but I do not want any notoriety or any trouble. I don't want this man sent to prison or punished in any way. I just want him held until the show gets out of town so that we can avoid having any trouble with the man.

"I sent three men to Col. Cody's car to watch for the barber and sent other men to look about the town. The man was arrested, hiding in the weeds near Col. Cody's car and it was plain that he had intended carrying out his threat. Col. Cody came and then invited me to his car to talk for awhile. I went and spent a pleasant hour. Col. Cody took down from the wall this Indian weapon and gave it to me with his picture on which he wrote his name and date. He told me that he had taken this weapon from some Indian chief and gave me the name of the Indian but I have forgotten it."

THOMAS E. CAMPBELL

Thomas E. Campbell believes he was elected governor of Arizona in the recent election, but Governor G. W. P. Hunt has refused to hand over to him the affairs of the state. He is recognized as governor by half the state and has set up an office, while Governor Hunt also is recognized by a faction.

BROKERS AND OFFICIALS MENTIONED IN STOCK DEAL

JOSEPH P. TUMULTY
BERNARD M. BARUCH
OTTO H. KAHN
REP WM. R. WOOD OF IND.

Representative William R. Wood of Indiana told the rules committee of the house of representatives, Friday, January 5, what he knew about the alleged stock deals said to have grown from interviews of Secretary of State Lansing and President Wilson's peace not December 21. A letter he read, signed "A. Curtis," and purporting to come from a Wall street broker, mentioned Barney M. Baruch, a well-known speculator on the New York Stock exchange. The letter also said Joseph P. Tumulty, secretary to President Wilson, had eaten breakfast with Baruch at the Biltmore hotel in New York about the time of the note and interviews. Mr. Wood asked that Otto H. Kahn, member of the big firm of Kuhn, Loeb & Co., be subpoenaed to tell if he had advance information about the notes.

STILL AFTER TICKS IN SEVERAL STATES

Atlanta Constitution: Presided over by J. A. Kiernan, supervising inspector of federal forces engaged in the eradication o fticks in states east of the Mississippi, Tuesday's session of the conference now being held at the federal building in Atlanta proved one of the most instructive of the session. Dr. C. A. Cary, state veterinarian of Alabama, made the first address, in which he stressed the importance of the dipping vat and arsenical baths for young horses as well as cattle. He declared that ticks on colts which escape the dipping vats are more than likely to reinfect the free pastures during the next season.

Dr. Cary urged that the men engaged in bringing the tick danger and its treatment before the people make clear to the breeders of cattle the importance of a thorough education in regard to the effect of ticks on stock of all kinds.

Dr. E. M. Nighbert, federal inspector of Florida, opened the discussion on methods employed in counties to eradicate ticks. Advertising in the form of circulars and posters was especially recommended. Others who spoke were Dr. E. P. Yager, inspector in charge of North Carolina; Dr. C. E. Smith, veterinary inspector for Alabama; A. C. Stever, of Florida; A. P. Abbott, of Georgia; R. V. Raphanel, of Mississippi, and F. S. Hope, of South Carolina.

At the afternoon session Dr. Peter F. Bahnsen, state veterinarian of Georgia, dwelt on the "Human Side of Tick Eradication." He declared that the farmer preferred to adopt eradication measures through choice rather than force and that proper educational work was necessary.

The remainder of Tuesday's session was devoted to a discussion of best methods of erecting vats.

Man Arrested Here and Taken to Chicago Relates Experiences

Dr. Johan Peterson, who was arrested in this city several weeks ago and taken back to Chicago on a warrant taken out in that city by a Chicago attorney, has been liberated and will return to Miami just as soon as he finishes up the affairs arising from his arrest.

Dr. Peterson tells an interesting story of his two year's experiences in America which ended in his arraignment on three different charges in Chicago, recently, and of his acquittal in each instance.

Coming to America at a time when the present war was at its height and while Americans were alarmed over Germany's attitude, the doctor was annoyed by the people's fear of German spies and was for a long time under suspicion.

He had plenty of money then, he said, but no knowledge of the English language and his troubles were trying. He studied hard to learn to talk English and was aided materially by a splendid education in his native tongue.

Offered legal advice, he claims to have been taken advantage of by some of those who proffered him service and for a long time his fear of arrest caused him much annoyance and concern. At the same time a number of innocent Germans were similarly annoyed but were eventually released.

In a letter to the Herald, recently, Dr. Peterson recites some of his experiences in an interesting manner and likewise calls attention to his troubles since arriving in Miami last year.

Dr. Peterson has reported his case to Federal Judge Landis and when the matter is adjusted he will return to Miami with Mrs. Peterson who is at present in Chicago. He has also instituted proceedings against Otto Jurgens, the Chicago attorney who caused his arrest.

The Peterson children have been left with Captain T. F. Lyons, in Lemon City until the return of their parents.

Banquet Under Chamber of Commerce Auspices—Miami Guests Present

The rally by the Homestead Chamber of Commerce at Homestead Thursday night, with a record-breaking banquet, was one of the most enjoyable ever participated in by the people of the south end of Dade county. Primarily it was for the benefit of the organization, the purpose being to create more interest in the work which it is calculated to do for the community and section.

Among the Miamians attending were S. M. Tatum, R. C. Perky and Judge and Mrs. Sanders. The Miamians returned home about two o'clock yesterday morning, in the chill of a rather cool night, but thoroughly delighted with all the events of the evening.

The banquet was served by an experienced caterer, and included an abundance of chicken, oysters in various styles, and all the salads and garnishments that one would expect in the most lavish feast.

Judge Sanders delivered a stirring address on the importance of standing by home industries and efforts, with special emphasis on the benefits possible by whole-hearted support of the Homestead Chamber of Commerce. The address was enthusiastically received.

Among the other speakers were Mr. Tatum and Mr. Perky of Miami, Col. H. S. Chubb, Rev. Fletcher, A. C. Grau, and R. B. Shallern. The banquet was presided over by S. E. Livingston most ably.

OWNS A SOUVENIR PRESENTED HIM BY LATE BUFFALO BILL

A souvenir personally presented by "Buffalo Bill" Cody is the valued possession of G. W. Blodgett of St. Petersburg.

It is an Indian weapon resembling a tomahawk, made from the horns of a bull, and was presented to Mr. Blodgett in 1895.

Referring to the souvenir, Mr. Blodgett says: "I was chief of polite of Saratoga Springs, N. Y., in 1895. Col. Cody played in that city with his big show. During the night performance he came to my office and said that his life had been threatened by a barber who had been discharged and driven off the show grounds. He said the man was regarded as desperate and had sworn to kill Cody. 'Buffalo Bill' wanted me to have the man arrested and said to me:

"I could have him handled or take care of him myself, but I do not want any notoriety or any trouble. I don't want this man sent to prison or punished in any way. I just want him held until the show gets out of town so that we can avoid having any trouble with the man.

"I sent three men to Col. Cody's car to watch for the barber and sent other men to look about the town. The man was arrested, hiding in the weeds near Col. Cody's car and it was plain that he had intended carrying out his threat. Col. Cody came and then invited me to his car to talk for awhile. I went and spent a pleasant hour. Col. Cody took down from the wall this Indian weapon and gave it to me with his picture on which he wrote his name and date. He told me that he had taken this weapon from some Indian chief and gave me the name of the Indian but I have forgotten it."

FIGHTS FOR A GOVERNORSHIP

THOMAS E. CAMPBELL

Thomas E. Campbell believes he was elected governor of Arizona in the recent election, but Governor G. W. P. Hunt has refused to hand over to him the affairs of the state. He is recognized as governor by half the state and has set up an office, while Governor Hunt also is recognized by a faction.

BROKERS AND OFFICIALS MENTIONED IN STOCK DEAL

JOSEPH P. TUMULTY
BERNARD M. BARUCH
OTTO H. KAHN
REP WM. R. WOOD OF IND.

Representative William R. Wood of Indiana told the rules committee of the house of representatives, Friday, January 5, what he knew about the alleged stock deals said to have grown from interviews of Secretary of State Lansing and President Wilson's peace not December 21. A letter he read, signed "A. Curtis," and purporting to come from a Wall street broker, mentioned Barney M. Baruch, a well-known speculator on the New York Stock exchange. The letter also said Joseph P. Tumulty, secretary to President Wilson, had eaten breakfast with Baruch at the Biltmore hotel in New York about the time of the note and interviews. Mr. Wood asked that Otto H. Kahn, member of the big firm of Kuhn, Loeb & Co., be subpoenaed to tell if he had advance information about the notes.

STILL AFTER TICKS IN SEVERAL STATES

Atlanta Constitution: Presided over by J. A. Kiernan, supervising inspector of federal forces engaged in the eradication o fticks in states east of the Mississippi, Tuesday's session of the conference now being held at the federal building in Atlanta proved one of the most instructive of the session. Dr. C. A. Cary, state veterinarian of Alabama, made the first address, in which he stressed the importance of the dipping vat and arsenical baths for young horses as well as cattle. He declared that ticks on colts which escape the dipping vats are more than likely to reinfect the free pastures during the next season.

Dr. Cary urged that the men engaged in bringing the tick danger and its treatment before the people make clear to the breeders of cattle the importance of a thorough education in regard to the effect of ticks on stock of all kinds.

Dr. E. M. Nighbert, federal inspector of Florida, opened the discussion on methods employed in counties to eradicate ticks. Advertising in the form of circulars and posters was especially recommended. Others who spoke were Dr. E. P. Yager, inspector in charge of North Carolina; Dr. C. E. Smith, veterinary inspector for Alabama; A. C. Stever, of Florida; A. P. Abbott, of Georgia; R. V. Raphanel, of Mississippi, and F. S. Hope, of South Carolina.

At the afternoon session Dr. Peter F. Bahnsen, state veterinarian of Georgia, dwelt on the "Human Side of Tick Eradication." He declared that the farmer preferred to adopt eradication measures through choice rather than force and that proper educational work was necessary.

The remainder of Tuesday's session was devoted to a discussion of best methods of erecting vats.

GRAND ARMY AT KISSIMMEE COMING APRIL

Prediction That 1,000 Florida Veterans Will be in Attendance

Department Commander W. H. Melrath of the Grand Army of the Republic of Florida has given notice that the thirty-fourth annual encampment of the department will be held this year at Kissimmee on April 3 and 4.

It is stated that about 1,000 will be in attendance.

Business of the encampment will include the election of officers and the usual routine matters and executive sessions.

There will be low round-trip rates over all railroads, according to the general custom, and after these are announced there will be other plans given out by the headquarters. The present officers of the Florida Department, G. A. R., are: Department commander, W. H. Melrath, Jacksonville; Senior vice commander, John A. Wallace, Tampa; Junior vice commander, Edward La Lond, Kissimmee; Chaplain, Rev. J. B. Westcott, St. Cloud; Medical director, Dr. George W. Holmes, Sharps.

Official staff—Asst. Adjt. and Q. M. general, Wm. James, Jacksonville; Chief of Staff, J. F. Bullard, St. Cloud; Patriotic instructor, George E. Fields, White House; Judge advocate, James Skinner, Archer; Inspector, J. C. Veatch, Zephyrhills; Mustering officer, Royal H. Robi, Palatka; Council of administration, Charles M. Ellis, chairman, Jacksonville; Thomas W. Brake, St. Augustine; Thomas Bryant, Lakeland; Carlo Call, Zephyrhills; Samuel Sage, Zephyrhills.

Quite a number of G. A. R. members reside in Miami, and probably some of them will attend the encampment.

BOSTON DOCTOR GOES UP FOR LIFE FOR MURDER

DR. ELBRIDGE C. ATWOOD

Dr. Elbridge C. Atwood, a Boston osteopath, was sentenced the other day to life imprisonment, on his plea of guilty to the murder of Dr. Wilfred E. Harris, president of Massachusetts College of Osteopathy, last July. This was the finale of the triangle love affair in which Dr. Celia F. Adams of Boston, who had been engaged to Dr. Atwood, is said to have confessed to him she could not wed him because of her relations with Dr. Harris, who had been her teacher.

PETERSON WILL COME TO MIAMI

Man Arrested Here and Taken to Chicago Relates Experiences

Dr. Johan Peterson, who was arrested in this city several weeks ago and taken back to Chicago on a warrant taken out in that city by a Chicago attorney, has been liberated and will return to Miami just as soon as he finishes up the affairs arising from his arrest.

Dr. Peterson tells an interesting story of his two year's experiences in America which ended in his arraignment on three different charges in Chicago, recently, and of his acquittal in each instance.

Coming to America at a time when the present war was at its height and while Americans were alarmed over Germany's attitude, the doctor was annoyed by the people's fear of German spies and was for a long time under suspicion.

He had plenty of money then, he said, but no knowledge of the English language and his troubles were trying. He studied hard to learn to talk English and was aided materially by a splendid education in his native tongue.

Offered legal advice, he claims to have been taken advantage of by some of those who proffered him service and for a long time his fear of arrest caused him much annoyance and concern. At the same time a number of innocent Germans were similarly annoyed but were eventually released.

In a letter to the Herald, recently, Dr. Peterson recites some of his experiences in an interesting manner and likewise calls attention to his troubles since arriving in Miami last year.

Dr. Peterson has reported his case to Federal Judge Landis and when the matter is adjusted he will return to Miami with Mrs. Peterson who is at present in Chicago. He has also instituted proceedings against Otto Jurgens, the Chicago attorney who caused his arrest.

The Peterson children have been left with Captain T. F. Lyons, in Lemon City until the return of their parents.

Orphanage Report.

An interesting report was made on the Arcadia orphanage.

Telling of the problems which had confronted the management of the home during the past year owing to the increased cost of necessities, Mr. Trice stated that there are now forty boys and fifty-six girls under its protection. For 1916, $181.61 was expended for permanent improvements and $435.61 for repairs, and it will be necessary during the coming year to expend at least $50 for the latter. The present indebtedness of the institution is $1,378.75 and in connection with this announcement needs for 1917 were cited.

In mentioning his helpers Mr. Trice praised the faithful and efficient corps of workers co-operating with him at the orphanage; Rev. Chas. T. Alexander, pastor at Arcadia, for his ever-ready help and interest in the children; the physicians and dentists of Arcadia who have given their service gratis, and the women of the state who have added so effectually in the undertaking, and thanked those who had made the Christmas season a glad one for the inmates of the home.

The annual statement of R. S. L. Carlton, treasurer of the orphanage, showed a total receipts of $11,653.33 for 1916; an expenditure of $11,531.81 and a balance of $121.52.

The report of the committee on nominations for trustees for the orphanage was read and adopted and the following men recommended were elected:

Term expiring January, 1918—G. O. Denham, M. E. Weeks, J. Brantley, N. C. Bryan and W. L. C. Mahon.

January, 1919—W. A. Hobson, J. H. Humphries, D. A. Scott, Frank Bentley and W. B. Parshley.

January, 1920—G. E. Mabry, D. H. Sloan, D. C. Tillman, Horace Carlton and T. C. Crosland.

The Sunday Schools.

Report of the work of the Sunday school department was given by W. W. Williams of Jacksonville, who is its secretary. His record shows for the past year the establishment of twelve training schools in which eighteen classes were taught. In awards Florida makes an excellent showing, holding 692 diplomas, 102 red seals and thirty-eight blue seals. A revival of teachers' training is evidenced in the state and there are now in the Baptist Sunday schools approximately 160 organized classes. Florida also has 479 Baptist Sunday schools with an enrollment of some 35,000 pupils and 4,000 teachers and officers.

Foreign Missions.

Dr. George Hyman in his report on foreign missions stated that the total contributions during the past year had amounted to $806,728. The present deficit is $180,000. There have been 6,371 converts and seventy-seven new churches established in foreign fields. There are now over 300 foreign missionaries, 453 mission schools, nineteen medical missionaries, nine hospitals and ten dispensaries; 74,866 patients were treated and great strides have been made in self-support and self-government by the natives of the various countries. Dr. Hyman emphasized the unescapable necessity of continuing this work and said that $8,500 was the amount requested of Florida Baptists by the board.

Columbia Trustees.

A report made by the committee on nomination for the trustees of Columbia College was adopted and the following members elected:

For five years: C. A. Carson, Kissimmee; W. A. Hobson, Jacksonville; R. E. Chalker, Live Oak; John P. Hendry, Arcadia.

J. L. White of Miami was elected to fill the unexpired term of B. B. Tatum, resigned. A. A. McColsky of Lake City was elected to the place of J. E. Johnson, who was not in attendance. Dr. S. H. Blitch of Blitchton was elected to the place of J. I. Roberts, deceased.

FIRE IN TOURIST SLEEPER CAUSES A SMALL LOST

Fire in one of the tourist sleepers, belonging to the Pullman Company, did considerable damage, early last night.

The car which was standing on a siding, near Second street, was used as a sleeper for some of the colored employes of the Pullman Company.

The origin of the fire is a mystery. No one was able to estimate the damage, last night, but it is believed that it will exceed $200 in furnishings.

The blaze was extinguished by the fire department.

TO SECURE CLOSER RELATONS BETWEEN CO. COMMISSIONERS

Plans are being made for a state convention of county commissioners in Florida, with a view to securing closer relation and better understanding between the various boards. This matter has been taken up by L. L. Meggs, chairman of the board of commissioners of Duval county, he having been urged by other commissioners to take the active steps in arranging for the meeting.

Letters have been prepared and sent to each board of commissioners in the state, inviting their opinions and if possible their support in the movement. It is tentatively proposed to hold the convention in Jacksonville, and the date has been left to the various boards, although February was selected to allow of reorganization and general arrangement of affairs after new county officers take their seats.

It has been proposed that the convention be devoted to discussion of various matters of great importance to the counties, and these subjects will embrace road building, convict employment, bonding, public institutions, legislation and many other things which have an important bearing on the work, and conduct of affairs of the respective counties. The point has been raised that the road work now being carried on by individual counties, depends to a great extent on the operations in neighboring counties to be a perfect success, and the convention would be a great help in bringing about a close co-operation in this and other lines of work.

It will be "Fathers and Sons" night, and all men and boys of the church and congregation are invited.

SMOOTH FAKE AD MAN WORKING STATE

Miamians should beware of a smooth talking individual working a fake advertising game, the St. Augustine Chamber of Commerce yesterday telegraphed to the Miami Chamber of Commerce.

The St. Augustine commercial body declared the man and his assistant skipped from St. Augustine when they learned their game was discovered, and tried to beat their board bill.

The man is said to be working what is known as the hotel room card game, and other fake advertising schemes, and is quoted by the secretary of the St. Augustine Chamber of Commerce as saying in St. Augustine that "skinning the suckers is easy" and he "gets by with it in every town."

CHAMBER OF COMMERCE IS WORKING HARD

To Provide Suitable Accommodations for the Swelling Tide of Visitors

The Chamber of Commerce's information bureau will find it necessary to call on the householders of Miami for every available room to provide accommodations for the winter visitors, according to the belief of John L. Pepper, assistant secretary of the Chamber in charge of the information bureau.

Mr. Pepper said he wishes to emphasize the fact that the service is absolutely free to the householders and the visitors benefitted by it. Everyone having a room he wishes to rent should acquaint the bureau with this fact, he declared, and every stranger wishing to obtain accommodations of this kind should also come to the bureau for advice and assistance.

"The demand for houses and rooms is great, especially for light housekeeping," Mr. Pepper said, "but while some are being listed, daily, the number is insufficient."

The Chamber of Commerce has obtained the co-operation of several owners of fishing boats and is ready to organize fishing parties for persons desiring to spend a day on the reef at a minimum cost.

Parties will be formed according to the size of the boat. Boatmen will supply tackle and bait, and the fisherman will take along the lunch and supply the appetite and the fisherman's luck.

Contrary to previous custom the fishermen will be permitted to keep their catch.

The Chamber of Commerce makes no money out of the transaction but is doing this to increase the popularity of fishing, one of Miami's greatest attractions, by putting the price down to a reasonable basis.

Persons desiring to go fishing under these circumstances should make the fact known to Mr. Pepper at the Chamber of Commerce.

Recent arrivals in Miami say that from conversations they overheard on the trains they formed the opinion that there are only two tourists towns in the state of any imporance—Miami on the east coast and St. Petersburg on the gulf.

Everywhere north of Jacksonville they overheard people telling of Miami, and many talked of St. Petersburg. A large number of southbound tourists had not made up their mind where they were going when they reached Jacksonville, and said they would make up their mind afterward, but the majority knew just where they wanted to come.

This was borne out yesterday by the receipt of a letter by the Chamber of Commerce from a native Floridian living at Winter Haven who recently returned from the north. He wrote of the conversations he overheard and added:

"I have come to the conclusion that we are living in the state of Miami and that somewhere within its borders is a little town named Florida."

PEOPLE COULD HELP OUT POSTOFFICE CLERKS

The problem of caring for the constantly increasing number of patrons of the local postoffice would be greatly simplified if the people would give a little thought to the situation and aid the clerks, one of the later pointed out yesterday afternoon.

He directed the attention of three streams of people each containing at least twenty-five persons, in front of the three general delivery windows. The lobby was so completely filled that it was almost impossible to pass, still the people fell into line and waited their turn, some being forced to wait twenty minutes to half an hour.

"Now if those people would only have their mail delivered by carrier, how much easier it would be for them and for us," the clerk said.

The clerk added that the postal regulations provide that only transients shall be served at the general delivery windows, and he added that a visitor ceases to be a transient after two weeks.

Fishermen will be interested in knowing that the closed season for mullet will end January 20. The only exception is the waters of the Suwannee river, where the season closes January 10 each year.

Section 8 of chapter 6877, of the acts of 1915 reads as follows:

"That from and after the passage of this act it shall be unlawful for any person, persons, firm or corporation to catch or to capture, or have in their possession, or ship any of the fish known as mullet, or any fresh or freshly salted mullet roe, in this state, between the 20th day of November of any year and the 20th day of January of the next following year; provided, that in the waters west of the Suwannee river the closed season in mullet shall be from November 30 to January 20 following. The possession of any fresh or freshly salted mullet roe, by any person, persons, firm or corporation during the closed season shall be prima facie evidence of the violation of the law."

SOCCER SEASON BEGINS WITH A GAME TODAY

The soccer season in Miami will begin this afternoon with a game between the Miami A. C. F. Club and another eleven known as the Wanderers, the latter team being composed largely of the players on last year's Deering Rangers and the former having in their ranks many of the players who won the south Florida championship for the Miami A. C. F. club last season.

The game will begin at three o'clock at the Royal Palm park.

ON LOOKOUT FOR "WIRE TAPPERS"

The local police are on the lookout for wire tappers and inquiries have been made at a number of the hotels for certain persons who are suspected with being connected with this kind of work. The names of a number of suspects have been furnished the police and a close watch is being kept up in the event that any of these might arrive here.

It is reported that a gang of tappers are somewhere in the state and every precaution will be taken by Chief Whitman and his men to keep these criminals from carrying out any of their plans.

TALLAHASSEE WON THE NEXT BAPTIST MEET

Dr. J. L. White of Miami Elected As a Trustee of Columbia College

In a fight on the floor at Orlando between Tampa and Tallahassee for the next meeting of the Florida Baptist convention Tallahassee won, after the committee had reported in favor of Tampa.

The Orlando convention ended Wednesday night.

Orphanage Report.

An interesting report was made on the Arcadia orphanage.

Telling of the problems which had confronted the management of the home during the past year owing to the increased cost of necessities, Mr. Trice stated that there are now forty boys and fifty-six girls under its protection. For 1916, $181.61 was expended for permanent improvements and $435.61 for repairs, and it will be necessary during the coming year to expend at least $50 for the latter. The present indebtedness of the institution is $1,378.75 and in connection with this announcement needs for 1917 were cited.

In mentioning his helpers Mr. Trice praised the faithful and efficient corps of workers co-operating with him at the orphanage; Rev. Chas. T. Alexander, pastor at Arcadia, for his ever-ready help and interest in the children; the physicians and dentists of Arcadia who have given their service gratis, and the women of the state who have added so effectually in the undertaking, and thanked those who had made the Christmas season a glad one for the inmates of the home.

The annual statement of R. S. L. Carlton, treasurer of the orphanage, showed a total receipts of $11,653.33 for 1916; an expenditure of $11,531.81 and a balance of $121.52.

The report of the committee on nominations for trustees for the orphanage was read and adopted and the following men recommended were elected:

Term expiring January, 1918—G. O. Denham, M. E. Weeks, J. Brantley, N. C. Bryan and W. L. C. Mahon.

January, 1919—W. A. Hobson, J. H. Humphries, D. A. Scott, Frank Bentley and W. B. Parshley.

January, 1920—G. E. Mabry, D. H. Sloan, D. C. Tillman, Horace Carlton and T. C. Crosland.

The Sunday Schools.

Report of the work of the Sunday school department was given by W. W. Williams of Jacksonville, who is its secretary. His record shows for the past year the establishment of twelve training schools in which eighteen classes were taught. In awards Florida makes an excellent showing, holding 692 diplomas, 102 red seals and thirty-eight blue seals. A revival of teachers' training is evidenced in the state and there are now in the Baptist Sunday schools approximately 160 organized classes. Florida also has 479 Baptist Sunday schools with an enrollment of some 35,000 pupils and 4,000 teachers and officers.

Foreign Missions.

Dr. George Hyman in his report on foreign missions stated that the total contributions during the past year had amounted to $806,728. The present deficit is $180,000. There have been 6,371 converts and seventy-seven new churches established in foreign fields. There are now over 300 foreign missionaries, 453 mission schools, nineteen medical missionaries, nine hospitals and ten dispensaries; 74,866 patients were treated and great strides have been made in self-support and self-government by the natives of the various countries. Dr. Hyman emphasized the unescapable necessity of continuing this work and said that $8,500 was the amount requested of Florida Baptists by the board.

Columbia Trustees.

A report made by the committee on nomination for the trustees of Columbia College was adopted and the following members elected:

For five years: C. A. Carson, Kissimmee; W. A. Hobson, Jacksonville; R. E. Chalker, Live Oak; John P. Hendry, Arcadia.

J. L. White of Miami was elected to fill the unexpired term of B. B. Tatum, resigned. A. A. McColsky of Lake City was elected to the place of J. E. Johnson, who was not in attendance. Dr. S. H. Blitch of Blitchton was elected to the place of J. I. Roberts, deceased.

FIRE IN TOURIST SLEEPER CAUSES A SMALL LOST

Fire in one of the tourist sleepers, belonging to the Pullman Company, did considerable damage, early last night.

The car which was standing on a siding, near Second street, was used as a sleeper for some of the colored employes of the Pullman Company.

The origin of the fire is a mystery. No one was able to estimate the damage, last night, but it is believed that it will exceed $200 in furnishings.

The blaze was extinguished by the fire department.

TO SECURE CLOSER RELATONS BETWEEN CO. COMMISSIONERS

Plans are being made for a state convention of county commissioners in Florida, with a view to securing closer relation and better understanding between the various boards. This matter has been taken up by L. L. Meggs, chairman of the board of commissioners of Duval county, he having been urged by other commissioners to take the active steps in arranging for the meeting.

Letters have been prepared and sent to each board of commissioners in the state, inviting their opinions and if possible their support in the movement. It is tentatively proposed to hold the convention in Jacksonville, and the date has been left to the various boards, although February was selected to allow of reorganization and general arrangement of affairs after new county officers take their seats.

It has been proposed that the convention be devoted to discussion of various matters of great importance to the counties, and these subjects will embrace road building, convict employment, bonding, public institutions, legislation and many other things which have an important bearing on the work, and conduct of affairs of the respective counties. The point has been raised that the road work now being carried on by individual counties, depends to a great extent on the operations in neighboring counties to be a perfect success, and the convention would be a great help in bringing about a close co-operation in this and other lines of work.

RADER WILL ADDRESS MEN.

The Club will also elect officers for the ensuing year.

It will be "Fathers and Sons" night, and all men and boys of the church and congregation are invited.

SMOOTH FAKE AD MAN WORKING STATE

Miamians should beware of a smooth talking individual working a fake advertising game, the St. Augustine Chamber of Commerce yesterday telegraphed to the Miami Chamber of Commerce.

The St. Augustine commercial body declared the man and his assistant skipped from St. Augustine when they learned their game was discovered, and tried to beat their board bill.

The man is said to be working what is known as the hotel room card game, and other fake advertising schemes, and is quoted by the secretary of the St. Augustine Chamber of Commerce as saying in St. Augustine that "skinning the suckers is easy" and he "gets by with it in every town."

CHAMBER OF COMMERCE IS WORKING HARD

To Provide Suitable Accommodations for the Swelling Tide of Visitors

The Chamber of Commerce's information bureau will find it necessary to call on the householders of Miami for every available room to provide accommodations for the winter visitors, according to the belief of John L. Pepper, assistant secretary of the Chamber in charge of the information bureau.

Mr. Pepper said he wishes to emphasize the fact that the service is absolutely free to the householders and the visitors benefitted by it. Everyone having a room he wishes to rent should acquaint the bureau with this fact, he declared, and every stranger wishing to obtain accommodations of this kind should also come to the bureau for advice and assistance.

"The demand for houses and rooms is great, especially for light housekeeping," Mr. Pepper said, "but while some are being listed, daily, the number is insufficient."

The Chamber of Commerce has obtained the co-operation of several owners of fishing boats and is ready to organize fishing parties for persons desiring to spend a day on the reef at a minimum cost.

Parties will be formed according to the size of the boat. Boatmen will supply tackle and bait, and the fisherman will take along the lunch and supply the appetite and the fisherman's luck.

Contrary to previous custom the fishermen will be permitted to keep their catch.

The Chamber of Commerce makes no money out of the transaction but is doing this to increase the popularity of fishing, one of Miami's greatest attractions, by putting the price down to a reasonable basis.

Persons desiring to go fishing under these circumstances should make the fact known to Mr. Pepper at the Chamber of Commerce.

Recent arrivals in Miami say that from conversations they overheard on the trains they formed the opinion that there are only two tourists towns in the state of any imporance—Miami on the east coast and St. Petersburg on the gulf.

Everywhere north of Jacksonville they overheard people telling of Miami, and many talked of St. Petersburg. A large number of southbound tourists had not made up their mind where they were going when they reached Jacksonville, and said they would make up their mind afterward, but the majority knew just where they wanted to come.

This was borne out yesterday by the receipt of a letter by the Chamber of Commerce from a native Floridian living at Winter Haven who recently returned from the north. He wrote of the conversations he overheard and added:

"I have come to the conclusion that we are living in the state of Miami and that somewhere within its borders is a little town named Florida."

PEOPLE COULD HELP OUT POSTOFFICE CLERKS

The problem of caring for the constantly increasing number of patrons of the local postoffice would be greatly simplified if the people would give a little thought to the situation and aid the clerks, one of the later pointed out yesterday afternoon.

He directed the attention of three streams of people each containing at least twenty-five persons, in front of the three general delivery windows. The lobby was so completely filled that it was almost impossible to pass, still the people fell into line and waited their turn, some being forced to wait twenty minutes to half an hour.

"Now if those people would only have their mail delivered by carrier, how much easier it would be for them and for us," the clerk said.

The clerk added that the postal regulations provide that only transients shall be served at the general delivery windows, and he added that a visitor ceases to be a transient after two weeks.

Fishermen will be interested in knowing that the closed season for mullet will end January 20. The only exception is the waters of the Suwannee river, where the season closes January 10 each year.

Section 8 of chapter 6877, of the acts of 1915 reads as follows:

"That from and after the passage of this act it shall be unlawful for any person, persons, firm or corporation to catch or to capture, or have in their possession, or ship any of the fish known as mullet, or any fresh or freshly salted mullet roe, in this state, between the 20th day of November of any year and the 20th day of January of the next following year; provided, that in the waters west of the Suwannee river the closed season in mullet shall be from November 30 to January 20 following. The possession of any fresh or freshly salted mullet roe, by any person, persons, firm or corporation during the closed season shall be prima facie evidence of the violation of the law."

SOCCER SEASON BEGINS WITH A GAME TODAY

The soccer season in Miami will begin this afternoon with a game between the Miami A. C. F. Club and another eleven known as the Wanderers, the latter team being composed largely of the players on last year's Deering Rangers and the former having in their ranks many of the players who won the south Florida championship for the Miami A. C. F. club last season.

The game will begin at three o'clock at the Royal Palm park.

ON LOOKOUT FOR "WIRE TAPPERS"

The local police are on the lookout for wire tappers and inquiries have been made at a number of the hotels for certain persons who are suspected with being connected with this kind of work. The names of a number of suspects have been furnished the police and a close watch is being kept up in the event that any of these might arrive here.

It is reported that a gang of tappers are somewhere in the state and every precaution will be taken by Chief Whitman and his men to keep these criminals from carrying out any of their plans.

Vol. 7. No. 41. MIAMI, FLORIDA, SATURDAY MORNING, JANUARY 13, 1917 PRICE FIVE CENTS

CONSIDERING PLANS MODERN Y. M. C. A. PLANT

Budget Made Up With Relation to Needs of City According to Population

The first step to be considered in planning a modern Y. M. C. A. building is the work that can be accomplished in the particular city in which it is to be erected and then the arrangement of a budget of receipts and expenditures that will provide for the larger parts of the annual expense, W. S. Frost, general secretary of the Miami Y. M. C. A., said yesterday.

The usual budget for a city of 20,000 to 25,000 people in connection with a plant costing in the neighborhood of $125,000, would call for a salary list, including janitors and dormitory matron approximating $11,000 annually. The additional expenditures for the building would amount to about $5,000 or a total of $16,000 per annum.

This budget would be cared for by estimated receipts from senior memberships of $4,200 and from boys' memberships of $2,000, earnings of bowling alleys and billiard tables of $700 and about five hundred dollars additional receipts from basketball games, rent of gymnasium and other sources of a like nature.

To this sum would be added the revenues to be derived from the dormitory rooms amounting to about six thousand dollars. The balance of the budget is made up each year by the annual contributions by friends who want to have a part in the community work for the young men and boys.

The associations throughout the country that provide for 80 per cent of the annual budget through receipts from memberships and other earnings referred to are considered at the very top notch of efficiency, so far as finances are concerned.

An association's work in such a building as will be provided in Miami calls for, at the very least, three departmental offices in addition to the general secretary.

The administration of association activities under the supervision of the general secretary will be taken care of in detail by a physical director having charge of the gymnasium, baths and swimming pool and all the physical work, a boys' work secretary who will have charge of the boys' department and its work, and a membership and social secretary who will have charge of the desk in the general office, solicit new members and plan, through volunteer workers, for the social life of the association.

Each man on the employed force must be trained by a technical course covering from two to three years and in addition is required to keep up studies upon which an examination is required once each year. This is for the purpose of keeping every employe up to date in his work and assuring a uniformity in the work throughout all the associations in the United States.

The official report said the aged woman had taken "more than ordinary interest in Lieutenant Barrett, to which he had failed to respond."

MAKE A PLEA FOR PARDON OF CHAMBERS

Fort Lauderdale Board of Trade Takes Case to President United States

Copies of resolutions adopted by the Board of Trade of Fort Lauderdale, December 20 are being sent out, the resolutions urging the president of the United States to grant pardon to Dr. E. C. Chambers, under sentence for fraudulent use of the mails.

The preamble to the resolutions sets forth that Dr. Chambers was convicted for "having distributed letters and printed matter concerning the value and possibilities of the Everglades and for having sold Everglades land upon promises of its drainage and claims of its cultivality, habitability and productivity when drained."

An interesting section of the resolutions follows:

"Resolved, That the Fort Lauderdale Board of Trade hereby declares its certain knowledge that Everglades lands, when drained will and do produce crops without fertilizer, and that these lands when drained are cultivable, habitable and highly productive; that Dr. Chambers and other men and companies who bought Everglades lands from the state at wholesale, to be resold in small tracts at retail, had at the time such retail sales were made, every assurance and every reason to believe that the state of Florida which was then engaged in drainage work in the Everglades, proposed to prosecute such work vigorously until the entire Everglades were drained and fully reclaimed, and that there was no fraud or misrepresentation in statements made by Dr. Chambers concerning either the fertility and possibilities of Everglades soil when drained or the state's assurances that the drainage would be promptly completed."

It is contended that Dr. Chambers in reality told the truth about the Everglades.

The secretary of the Fort Lauderdale Board of Trade was instructed to forward copies of the resolutions to the president of the United States, the attorney general of the United States, the two United States senators from Florida, and the members of congress from this district and to furnish copies to the press and South Florida commercial bodies.

THRIFT CLUB IS PROPOSED

Novel Plan Which Works in Other Cities May Be Tried Here

A movement is on foot to establish in Miami what will be known as a "Thrift-Club." The plan is said to be in operation in many cities.

Giving details of the plan Miss Edna C. Glass said yesterday:

"I am told that in some places the sentiment is so strong for this movement that business houses display in their show windows placards with the words, "The employes of this establishment belong to the Thrift Club."

"The idea is three-fold; it is not only saving, but as the club at the Business College has it, "To earn, to save, to wisely spend." So often the word "saving" carries with it the idea of sacrifice, but any one seeing the members of this club come to deposit their savings will be struck with the idea that to them it is a joy and not a sacrifice.

"The club spirit stimulates an interest and they are made to feel that no amount is too small to help them along in their undertaking and that no labor is degrading that tends to their ultimate success.

"Each organizer enrolls those who wish to open savings accounts or who have savings accounts and each member is given a certificate of membership. The organizer can think of many ways to inspire interest in his or her particular club. It is well to adopt a motto and to have the members meet occasionally and tell what they have done to earn extra money for their Thrift accounts.

"Every thing we do is habit and it is just as easy for us to train ourselves in habits of thrift and economy as in any other habit."

TENNESSEE DOCTOR DEAD IN A SWAMP NEAR ST. MARKS, FLA.

Chattanooga, Jan. 12.—A telegram was received here from St. Marks, Fla., stating that the body of Dr. Judson T. Park, of St. Elmo, a suburb of this city, had been found in the swamp near that place, and thus is the mystery of Dr. Park's disappearance, which has been baffling the authorities and members of the doctor's family, partly cleared.

Dr. Park went to Florida several months ago and entered some government land, and was living on the land in order to protect his title.

Three weeks ago his mother, Mrs. Alice Park of St. Elmo, on being notified of her son's disappearance, went to Florida, and had since been directing a search for him. The telegram received here by Mrs. Hattie Park Humphries, the doctor's sister, merely stated that the body had been found and would be brought here for burial.

It had been thought for several days that Dr. Park had been murdered, and it is stated that three men have been arrested and are being held for investigation.

Dr. Park was thirty-five years of age and well known in St. Elmo, his home, where he had lived previous to going to Florida.

Even if they find that leak in Washington it is not very likely that Barney Baruch will refund any of the money he got out of it.

The profits of six principal meat companies of Argentina in 1915 were reported at $9,000,000 United States currency.

CONSIDERING PLANS MODERN Y. M. C. A. PLANT

Budget Made Up With Relation to Needs of City According to Population

The first step to be considered in planning a modern Y. M. C. A. building is the work that can be accomplished in the particular city in which it is to be erected and then the arrangement of a budget of receipts and expenditures that will provide for the larger parts of the annual expense, W. S. Frost, general secretary of the Miami Y. M. C. A., said yesterday.

The usual budget for a city of 20,000 to 25,000 people in connection with a plant costing in the neighborhood of $125,000, would call for a salary list, including janitors and dormitory matron approximating $11,000 annually. The additional expenditures for the building would amount to about $5,000 or a total of $16,000 per annum.

This budget would be cared for by estimated receipts from senior memberships of $4,200 and from boys' memberships of $2,000, earnings of bowling alleys and billiard tables of $700 and about five hundred dollars additional receipts from basketball games, rent of gymnasium and other sources of a like nature.

To this sum would be added the revenues to be derived from the dormitory rooms amounting to about six thousand dollars. The balance of the budget is made up each year by the annual contributions by friends who want to have a part in the community work for the young men and boys.

The associations throughout the country that provide for 80 per cent of the annual budget through receipts from memberships and other earnings referred to are considered at the very top notch of efficiency, so far as finances are concerned.

An association's work in such a building as will be provided in Miami calls for, at the very least, three departmental offices in addition to the general secretary.

The administration of association activities under the supervision of the general secretary will be taken care of in detail by a physical director having charge of the gymnasium, baths and swimming pool and all the physical work, a boys' work secretary who will have charge of the boys' department and its work, and a membership and social secretary who will have charge of the desk in the general office, solicit new members and plan, through volunteer workers, for the social life of the association.

Each man on the employed force must be trained by a technical course covering from two to three years and in addition is required to keep up studies upon which an examination is required once each year. This is for the purpose of keeping every employe up to date in his work and assuring a uniformity in the work throughout all the associations in the United States.

Woman Censured for British Army Scandal and Two Officers Who Are Involved In the Case

MRS. WILLIAM CORNWALLIS-WEST

TOP-GEN. W. H. MACKINNON.
LOWER-GEN. SIR JOHN COWANS

Mrs. Cornwallis-West, mother of the son who married the younger Mrs. Cornwallis-West, who was Miss Jerome of New York, has been severely censured by a British court of inquiry for meddling with army affairs. In her efforts first to help and then punish Lieutenant Patrick Barrett, General Mackinnon, now retired, became involved, as did General Sir John Cowans. The official report said the aged woman had taken "more than ordinary interest in Lieutenant Barrett, to which he had failed to respond."

TENNESSEE DOCTOR DEAD IN A SWAMP NEAR ST. MARKS, FLA.

Chattanooga, Jan. 12.—A telegram was received here from St. Marks, Fla., stating that the body of Dr. Judson T. Park, of St. Elmo, a suburb of this city, had been found in the swamp near that place, and thus is the mystery of Dr. Park's disappearance, which has been baffling the authorities and members of the doctor's family, partly cleared.

Dr. Park went to Florida several months ago and entered some government land, and was living on the land in order to protect his title.

Three weeks ago his mother, Mrs. Alice Park of St. Elmo, on being notified of her son's disappearance, went to Florida, and had since been directing a search for him. The telegram received here by Mrs. Hattie Park Humphries, the doctor's sister, merely stated that the body had been found and would be brought here for burial.

It had been thought for several days that Dr. Park had been murdered, and it is stated that three men have been arrested and are being held for investigation.

Dr. Park was thirty-five years of age and well known in St. Elmo, his home, where he had lived previous to going to Florida.

Even if they find that leak in Washington it is not very likely that Barney Baruch will refund any of the money he got out of it.

The profits of six principal meat companies of Argentina in 1915 were reported at $9,000,000 United States currency.

DON'T BE BILIOUS HEADACHY, SICK OR CONSTIPATED

Enjoy life! Liven your liver and bowels tonight and feel great.

Wake up with head clear, stomache sweet, breath right, cold gone.

Take one or two Cascarets tonight and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. Wake up feeling grand, your head will be clear, your tongue clean, breath sweet, stomach regulated and your liver and thirty feet of bowels active. Get a box at any drug store now and get straightened up by morning. Stop the headache, biliousness, bad colds and bad days. Feel fit and ready for work or play. Cascarets do not gripe, sicken or inconvenience you the next day like salts, pills or calomel. They're fine!

Mothers should give a whole Cascaret anytime to cross, sick, bilious or feverish children because it will act thoroughly and can not injure.

MAKE A PLEA FOR PARDON OF CHAMBERS

Fort Lauderdale Board of Trade Takes Case to President United States

Copies of resolutions adopted by the Board of Trade of Fort Lauderdale, December 20 are being sent out, the resolutions urging the president of the United States to grant pardon to Dr. E. C. Chambers, under sentence for fraudulent use of the mails.

The preamble to the resolutions sets forth that Dr. Chambers was convicted for "having distributed letters and printed matter concerning the value and possibilities of the Everglades and for having sold Everglades land upon promises of its drainage and claims of its cultivality, habitability and productivity when drained."

An interesting section of the resolutions follows:

"Resolved, That the Fort Lauderdale Board of Trade hereby declares its certain knowledge that Everglades lands, when drained will and do produce crops without fertilizer, and that these lands when drained are cultivable, habitable and highly productive; that Dr. Chambers and other men and companies who bought Everglades lands from the state at wholesale, to be resold in small tracts at retail, had at the time such retail sales were made, every assurance and every reason to believe that the state of Florida which was then engaged in drainage work in the Everglades, proposed to prosecute such work vigorously until the entire Everglades were drained and fully reclaimed, and that there was no fraud or misrepresentation in statements made by Dr. Chambers concerning either the fertility and possibilities of Everglades soil when drained or the state's assurances that the drainage would be promptly completed."

It is contended that Dr. Chambers in reality told the truth about the Everglades.

The secretary of the Fort Lauderdale Board of Trade was instructed to forward copies of the resolutions to the president of the United States, the attorney general of the United States, the two United States senators from Florida, and the members of congress from this district and to furnish copies to the press and South Florida commercial bodies.

THRIFT CLUB IS PROPOSED

Novel Plan Which Works in Other Cities May Be Tried Here

A movement is on foot to establish in Miami what will be known as a "Thrift-Club." The plan is said to be in operation in many cities.

Giving details of the plan Miss Edna C. Glass said yesterday:

"I am told that in some places the sentiment is so streng for this movement that business houses display in their show windows placards with the words, "The employes of this establishment belong to the Thrift Club."

"The idea is three-fold; it is not only saving, but as the club at the Business College has it, "To earn, to save, to wisely spend." So often the word "saving" carries with it the idea of sacrifice, but any one seeing the members of this club come to deposit their savings will be struck with the idea that to them it is a joy and not a sacrifice.

"The club spirit stimulates an interest and they are made to feel that no amount is too small to help them along in their undertaking and that no labor is degrading that tends to their ultimate success.

"Each organizer enrolls those who wish to open savings accounts or who have savings accounts and each member is given a certificate of membership. The organizer can think of many ways to inspire interest in his or her particular club. It is well to adopt a motto and to have the members meet occasionally and tell what they have done to earn extra money for their Thrift accounts.

"Every thing we do is habit and it is just as easy for us to train ourselves in habits of thrift and economy as in any other habit."

USE OF THE TIMBER HERETOFORE WASTED

Crystal Springs, Jan. 12.—J. M. McCloud, W. T. Kelly and W. C. Smith have established a new industry here for the manufacture of hampers, crates, etc., for the shipment of produce. The initial plant has been located on the McCloud building lots on Atlanta avenue, where Mr. McCloud has been engaged for a number of weeks in installing and making machinery and equipment, and where some sample products have been turned out, but it is intended later to secure a site near the railroad, if the business proves as successful as indicated that it may be.

The company, which so far is merely a copartnership, expects to utilize a great amount of timber in this locality that it now practically going to waste. Among such waste timber is a large quantity of cypress butts that have been left by railroad-tie cutters. A quantity of this timber has already been gathered up and has been sawed into staves and heads for hampers.

SUNDAY SCHOOL DAY TO BE FEBRUARY 11 FOR STATE OF FLORIDA

February 11th will this year be known as state-wide "Go-to-Sunday-School-Day" in Florida.

Practically every state south of the Ohio and east of the Mississippi, including a number west of the river will make the same effort on this day. The second Sunday in February is to be the day every year when everybody everywhere is to make a concerted, universal effort to bring men, women and children into the Sunday schools of our southland. Florida agreed to this move when, at the last state convention in Lakeland, it was unanimously voted that this state join with the others in the general observance.

This movement is wholly interdenominational, embracing every evangelical church and Sunday school in the entire state. A mighty impetus should be thus secured. Added to this statewide movement will be the power and influence of all the advertising and agitation in all the south. Florida at the present time has perhaps 85,000 pupils enrolled upon her Sunday school books. There is an average attendance of perhaps 65,000. The purpose of this Go-to-Sunday-School-Day is to increase this attendance that day to over 125,000.

This is the second such day observed in this state. The first day was observed a year ago, namely, October 3rd, 1915. At that time the Florida Sunday School Association inaugurated the first state-wide move. Governor Trammell endorsed it with a state-wide proclamation, and everywhere efforts were made to get people into Sunday schools. As a result, the reports coming to the state office indicated that those schools which observed the move had increased their attendance from 25 percent to more than 200 per cent. Thousands of pupils were held permanently for the schools all over the state.

The state-wide day was not observed in 1916, owing to the fact that this state desired very much to celebrate a uniform day with the balance of the south, and at the recent conference of the south's general secretaries in Sunday school work in Atlanta, the second Sunday in February became the uniform and mutual day.

The Florida Sunday School Association is issuing a splendid program for the day. This program will be calculated to add dignity to the occasin, and to give much needed information to all schools which will use it. This program, put up in attractive form, will be sent in sufficient numbers to any school desiring same.

In the city of Jacksonville, this day will be further emphasized by the special campaign now on for 5,000 men. Much interest is being developed in the metropolis towards this end, and it is confidently hoped that even more men will be added to the schools of that city than the goal set.

The office of the State Sunday School Association reports that there is much need in the state for this movement. There are many counties which have only a few Sunday schols, and a very meager number of people attending. Available statistics show that some counties have less than 5 per cent of their white population in Sunday schools. Other counties report absolutely no Cradle Rolls nor Home Departments, and some even report no organized bible classes. In many sections of the country the Sunday school spirit is at low ebb, and a movement such as is now being planned, if of sufficient intensity, ought to sweep these calmer counties into the column of strenuous activities.

It is hoped in this county large efforts will be made for this day and that ministers will preach special sermons along this line of the public services February 11th.

Still, we are such a stickler for appearances that we trust Robert L. Owens will not enter the supreme court room and bawl the court out in open session.

SAVE YOUR HAIR AND BEAUTIFY IT WITH "DANDERINE"

Spend 25 cents! Dandruff disappears and hair stops coming out.

Try this! Hair gets beautiful, wavy and thick in few moments.

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25-cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

FINALS IN TOURNAMENT PLAYED NEXT THURSDAY

H. K. B. Davis won from H. de Justison, five up and four to play, and F. O. Ellis defeated J. H. Tally, one up on twenty holes, at the Miami Beach Golf club yesterday in the third flight for the Burdine trophy cup.

This is the first time since the Miami Beach course was opened to players that it has been found necessary to play extra holes to decide a match. Mr. Tally missed a short putt, and that, he considers, was responsible for his defeat.

The finals will be played between Messrs. Davis and Ellis next Thursday morning, and the New Year's tournament will be decided.

The third tournament of the year will come on the Fourth of July with the Burdine cup as the prize for which the players will compete.

LIVELY GOLF MEETING IS THE PREDICTION

New York, Jan. 12.—Golfers are arriving from all directions to attend the annual meeting of the United States Golf Association to be held here tomorrow. Present indications are that the meeting will be the most important in the history of the governing body of the great outdoor sport.

The interpretation of the amateur rule will be the big bone of contention. Delegates from the Woodland Golf Club of Massachusetts have come prepared to fight to the last ditch against any legislation upholding the disqualification of Ouimet and other prominent golfers who were debarred because of alleged professionalism.

The Woodland club has enlisted the support of other clubs throughout the country and a lively fight is in prospect.

Besides disposing of the amateur question the meeting will vote upon the courses which have been suggested for the three annual tournaments.

The election of officers for the ensuing year will also form a part of the business of the meeting. The ticket of officers as presented by the nominating committee is expected to go through without opposition according to the usual custom.

The ticket is headed by Howard W. Perrin, of the Pin Valley Golf Club, Summer, N. J., as candidate for the presidency.

Enough for One Acre

Legumes With NitrA-germ Reduce Fertilizer Bills

Nitrogen—or ammonia—representing 60 per cent of the cost of commercial fertilizers may be secured from the air by the use of NitrA-germ with legumes such as beans, peas, cowpeas, peanuts, etc. Proper rotation with NitrA-germ will help make available much phosphoric acid and potash previously given to the soil, besides supplying abundant nitrogen. Thus needed fertilizers are reduced in amount, and they are not necessarily applied every year, as is the practice where NitrA-germ is not used.

Read the Verdict of Farmers on NitrA-germ

"Two-months-old NitrA-germed peas are waist high— those not inoculated are 18 inches. I had little confidence. Wish now I had used more NitrA-germ."—O. C. Coppedge.

"I sowed one acre, used one pound of NitrA-germ, and cut seven loads of hay. Sowed another acre—same kind of land—without NitrA-germ—got two loads."—J. M. Arnold.

"Cotton where NitrA-germed peas were is larger growth, has blooms. The other has no blooms. NitrA-germ and legumes build up soil, cut fertilizer bills."—H. Leland Law.

Write for free literature which tells how NitrA-germ builds up your soil, makes larger crops, reduces fertilizer bills. Send $2 for one-acre trial bag—$9 for five acres—$33 for twenty acres.

USE OF THE TIMBER HERETOFORE WASTED

Crystal Springs, Jan. 12.—J. M. McCloud, W. T. Kelly and W. C. Smith have established a new industry here for the manufacture of hampers, crates, etc., for the shipment of produce. The initial plant has been located on the McCloud building lots on Atlanta avenue, where Mr. McCloud has been engaged for a number of weeks in installing and making machinery and equipment, and where some sample products have been turned out, but it is intended later to secure a site near the railroad, if the business proves as successful as indicated that it may be.

The company, which so far is merely a copartnership, expects to utilize a great amount of timber in this locality that it now practically going to waste. Among such waste timber is a large quantity of cypress butts that have been left by railroad-tie cutters. A quantity of this timber has already been gathered up and has been sawed into staves and heads for hampers.

SUNDAY SCHOOL DAY TO BE FEBRUARY 11 FOR STATE OF FLORIDA

February 11th will this year be known as state-wide "Go-to-Sunday-School-Day" in Florida.

Practically every state south of the Ohio and east of the Mississippi, including a number west of the river will make the same effort on this day. The second Sunday in February is to be the day every year when everybody everywhere is to make a concerted, universal effort to bring men, women and children into the Sunday schools of our southland. Florida agreed to this move when, at the last state convention in Lakeland, it was unanimously voted that this state join with the others in the general observance.

This movement is wholly interdenominational, embracing every evangelical church and Sunday school in the entire state. A mighty impetus should be thus secured. Added to this state-wide movement will be the power and influence of all the advertising and agitation in all the south. Florida at the present time has perhaps 85,000 pupils enrolled upon her Sunday school books. There is an average attendance of perhaps 65,000. The purpose of this Go-to-Sunday-School-Day is to increase this attendance that day to over 125,000.

This is the second such day observed in this state. The first day was observed a year ago, namely, October 3rd, 1915. At that time the Florida Sunday School Association inaugurated the first state-wide move. Governor Trammell endorsed it with a state-wide proclamation, and everywhere efforts were made to get people into Sunday schools. As a result, the reports coming to the state office indicated that those schools which observed the move had increased their attendance from 25 percent to more than 200 per cent. Thousands of pupils were held permanently for the schools all over the state.

The state-wide day was not observed in 1916, owing to the fact that this state desired very much to celebrate a uniform day with the balance of the south, and at the recent conference of the south's general secretaries in Sunday school work in Atlanta, the second Sunday in February became the uniform and mutual day.

The Florida Sunday School Association is issuing a splendid program for the day. This program will be calculated to add dignity to the occasin, and to give much needed information to all schools which will use it. This program, put up in attractive form, will be sent in sufficient numbers to any school desiring same.

In the city of Jacksonville, this day will be further emphasized by the special campaign now on for 5,000 men. Much interest is being developed in the metropolis towards this end, and it is confidently hoped that even more men will be added to the schools of that city than the goal set.

The office of the State Sunday School Association reports that there is much need in the state for this movement. There are many counties which have only a few Sunday schols, and a very meager number of people attending. Available statistics show that some counties have less than 5 per cent of their white population in Sunday schools. Other counties report absolutely no Cradle Rolls nor Home Departments, and some even report no organized bible classes. In many sections of the country the Sunday school spirit is at low ebb, and a movement such as is now being planned, if of sufficient intensity, ought to sweep these calmer counties into the column of strenuous activities.

It is hoped in this county large efforts will be made for this day and that ministers will preach special sermons along this line of the public services February 11th.

Still, we are such a stickler for appearances that we trust Robert L. Owens will not enter the supreme court room and bawl the court out in open session.

SAVE YOUR HAIR AND BEAUTIFY IT WITH "DANDERINE"

Spend 25 cents! Dandruff disappears and hair stops coming out.

Try this! Hair gets beautiful, wavy and thick in few moments.

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25-cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

FINALS IN TOURNAMENT PLAYED NEXT THURSDAY

H. K. B. Davis won from H. de Justison, five up and four to play, and F. O. Ellis defeated J. H. Tally, one up on twenty holes, at the Miami Beach Golf club yesterday in the third flight for the Burdine trophy cup.

This is the first time since the Miami Beach course was opened to players that it has been found necessary to play extra holes to decide a match. Mr. Tally missed a short putt, and that, he considers, was responsible for his defeat.

The finals will be played between Messrs. Davis and Ellis next Thursday morning, and the New Year's tournament will be decided.

The third tournament of the year will come on the Fourth of July with the Burdine cup as the prize for which the players will compete.

LIVELY GOLF MEETING IS THE PREDICTION

New York, Jan. 12.—Golfers are arriving from all directions to attend the annual meeting of the United States Golf Association to be held here tomorrow. Present indications are that the meeting will be the most important in the history of the governing body of the great outdoor sport.

The interpretation of the amateur rule will be the big bone of contention.

Delegates from the Woodland Golf Club of Massachusetts have come prepared to fight to the last ditch against any legislation upholding the disqualification of Ouimet and other prominent golfers who were debarred because of alleged professionalism.

The Woodland club has enlisted the support of other clubs throughout the country and a lively fight is in prospect.

Besides disposing of the amateur question the meeting will vote upon the courses which have been suggested for the three annual tournaments.

The election of officers for the ensuing year will also form a part of the business of the meeting. The ticket of officers as presented by the nominating committee is expected to go through without opposition according to the usual custom.

The ticket is headed by Howard W. Perrin, of the Pin Valley Golf Club, Summer, N. J., as candidate for the presidency.

Enough for One Acre

Legumes With NitrA-germ Reduce Fertilizer Bills

Nitrogen—or ammonia—representing 60 per cent of the cost of commercial fertilizers may be secured from the air by the use of NitrA-germ with legumes such as beans, peas, cowpeas, peanuts, etc. Proper rotation with NitrA-germ will help make available much phosphoric acid and potash previously given to the soil, besides supplying abundant nitrogen. Thus needed fertilizers are reduced in amount, and they are not necessarily applied every year, as is the practice where NitrA-germ is not used.

Read the Verdict of Farmers on NitrA-germ

"Two-months-old NitrA-germed peas are waist high— those not inoculated are 18 inches. I had little confidence. Wish now I had used more NitrA-germ."—O. C. Coppedge.

"I sowed one acre, used one pound of NitrA-germ, and cut seven loads of hay. Sowed another acre—same kind of land—without NitrA-germ—got two loads."—J. M. Arnold.

"Cotton where NitrA-germed peas were is larger growth, has blooms. The other has no blooms. NitrA-germ and legumes build up soil, cut fertilizer bills."—H. Leland Law.

Write for free literature which tells how NitrA-germ builds up your soil, makes larger crops, reduces fertilizer bills. Send $2 for one-acre trial bag—$9 for five acres—$33 for twenty acres.

NOTICE IS HEREBY GIVEN that the undersigned intend to apply to the Hon. Sidney J. Catts, Governor of the State of Florida, at Tallahassee, Florida, on the 5th day of February, A. D. 1917, for the issuance of Letters Patent to the Seminole Construction & Supply Co., upon the proposed Charter of said company as hereinafter set out.

H. L. WOODBURN.
L. B. MANLEY.
S. H. GILMORE.

ARTICLES OF INCORPORATION.

The undersigned hereby associate themselves and also with all other persons hereafter consenting, into a corporation, pursuant to the provisions of the Laws of the State of Florida, providing for the formation of corporation for profit, for the purposes and with the powers hereinafter mentioned; and to that end we do by this, our certificate, set forth:

ARTICLE I.

That the name of this corporation is the Seminole Construction & Supply Co.

ARTICLE II.

That its place of business shall be in Dade County, Florida, and such other places and counties in the state of Florida, in other states of the United States, in foreign countries, as the nature and progress of the business of said corporation shall, from time to time, render necessary or desirable.

ARTICLE III.

The principal office of said corporation shall be located in the City of Miami, Dade County, Florida.

ARTICLE IV.

The purposes for which the said corporation is organized are, to carry on a general contracting, engineering and supply business; to buy, own, sell and make contracts which will necessitate the use of all building material whatsoever, to buy, own, operate and sell dredges, barges, motor boats, wagons, live stock, and any and all machinery and equipment necessary or expedient for digging ditches, channels and canals, making dikes and levies, installing electric lighting, gas and water plants, grading, building roads, streets, side walks, sewers, railroads, buildings, etc., to own and operate commissaries, and to do all other work incident to a general contracting and supply business, to carry on a general engineering business and to furnish plans and estimates for all classes of engineering work, to buy, own, improve, rent and sell real estate, with power to borrow money and issue mortgages and bonds against any or all of its property, real and personal, to buy, own and sell other mortgages, bonds, liens and contracts, to own stock in other corporations and to do any and all things necessary or expedient for the carrying out of the purposes hereinbefore mentioned.

ARTICLE V.

The capital stock of this corporation shall be Twenty-five Thousand ($25,000.00) Dollars, which shall be divided into two hundred fifty shares of the par value of One Hundred ($100) Dollars each. All stock shall be issued full paid and non-assessable. The corporation shall have power to receive property and services in payment for stock at a just and fair valuation to be fixed as provided by law.

ARTICLE VI.

The existence of this corporation shall be for a period of ninety-nine years.

ARTICLE VII.

The business of this corporation shall be conducted by a board of directors, which shall consist of not less than three and not more than five members, as may be determined by the by-laws, and the following officers, and such other officers and employes as from time to time may be employed, namely, a President, a Vice-President, a Secretary and a Treasurer, any two of said offices except the President and Vice-President, to be held by one and the same person. The members of the said Board of Directors shall be elected at the annual meeting of the stockholders of this corporation, to be held on the first day of March of each year, but the date of the annual meeting may be changed by a vote of the stockholders holding a majority of the outstanding stock. The name of the officers who are to conduct the business elected at the first annual stockholders meeting, shall be qualified as follows:

BOARD OF DIRECTORS

H. L. Woodburn, L. B. Manley, S. H. Gilmore

Until the first annual election, H. L. Woodburn shall be President; L. B. Manley, Vice-President and General Manager, and S. H. Gilmore, Secretary and Treasurer.

ARTICLE VIII.

The highest amount of indebtedness or liability to which this corporation may at any time subject itself shall not exceed One Hundred Thousand ($100,000.00) Dollars.

ARTICLE IX.

The names and residences of the subscribers to the stock of this corporation, together with the amount of stock subscribed for by each, are as follows:

H. L. Woodburn, Massey, Maryland, 100 shares.

L. B. Manley, Miami, Florida, 30 shares.

S. H. Gilmore, Miami, Florida, 10 shares.

WITNESS the hands and seals of said subscribers the 2nd day of January, A. D. 1917.

(Seal) H. L. WOODBURN, Massey, Md.
(Seal) L. B. MANLEY, Miami, Fla.
(Seal) S. H. GILMORE, Miami, Fla.

STATE OF FLORIDA,
COUNTY OF DADE.

BEFORE me, the undersigned authority, came H. L. Woodburn, L. B. Manley and S. H. Gilmore, to me well known to be the persons described in and who executed the foregoing Articles of Incorporation, and they each and severally acknowledged before me that they executed the same for the purposes therein expressed.

IN WITNESS WHEREOF I have hereunto set my hand and affixed my official seal at Miami, in the said County of Dade, and State of Florida, this 2nd day of January, A. D. 1917.

LAURA S. HUCK,
Notary Public, State of Florida.
My Commission Expires 3-11-17.

"Synthetic Soup" Eliminates Meat From the First Dinner Course.

Science is hurrying to the rescue. Along sanitary and military and mechanical lines it has made marvelous progress. In the culinary field it leaves much to be desired. Now comes a Philadelphia chemist and offers mankind a mineral soup that is pronounced fully as nutritious as the finest beef extract. He told the Franklin Institute the other night how the substitute is prepared. It is a decidedly peculiar recipe, and one that might well make the ordinary cookbook shudder. You take portions of sodium phosphate and calcium carbonate and ammonium sulphate, add a little sugar and a small amount of yeast. These ingredients are mixed and set away until reaction by autolysis ensues, and a brown sticky paste that has all the nutritive qualities of commercial beef extract is produced.

According to the chemist, it is the yeast that transforms the inorganic minerals into the pronounced organic meat substitute. The yeast contains fermentation agents called enzymes, which are responsible for the alteration, and produce the food qualities from the chemicals. There were doubters about the table at the Franklin Institute. They insisted upon tasting the "stone soup," and pronounced it good. They even declared that it was fully equal in nutrition and appearance to the market variety, and each of the samplers pronounced the odor remarkably beeflike.

Incidentally the chemist announced that the cost of "stone soup," which he called synthetic meat, is less than that for the ox or sheep.—Cleveland Plain Dealer.

LEGAL NOTICES

NOTICE OF INTENTION TO APPLY FOR LETTERS PATENT.

NOTICE IS HEREBY GIVEN that the undersigned intend to apply to the Hon. Sidney J. Catts, Governor of the State of Florida, at Tallahassee, Florida, on the 5th day of February, A. D. 1917, for the issuance of Letters Patent to the Seminole Construction & Supply Co., upon the proposed Charter of said company as hereinafter set out.

H. L. WOODBURN.
L. B. MANLEY.
S. H. GILMORE.

ARTICLES OF INCORPORATION.

The undersigned hereby associate themselves and also with all other persons hereafter consenting, into a corporation, pursuant to the provisions of the Laws of the State of Florida, providing for the formation of corporation for profit, for the purposes and with the powers hereinafter mentioned; and to that end we do by this, our certificate, set forth:

ARTICLE I.

That the name of this corporation is the Seminole Construction & Supply Co.

ARTICLE II.

That its place of business shall be in Dade County, Florida, and such other places and counties in the state of Florida, in other states of the United States, in foreign countries, as the nature and progress of the business of said corporation shall, from time to time, render necessary or desirable.

ARTICLE III.

The principal office of said corporation shall be located in the City of Miami, Dade County, Florida.

ARTICLE IV.

The purposes for which the said corporation is organized are, to carry on a general contracting, engineering and supply business; to buy, own, sell and make contracts which will necessitate the use of all building material whatsoever, to buy, own, operate and sell dredges, barges, motor boats, wagons, live stock, and any and all machinery and equipment necessary or expedient for digging ditches, channels and canals, making dikes and levies, installing electric lighting, gas and water plants, grading, building roads, streets, side walks, sewers, railroads, buildings, etc., to own and operate commissaries, and to do all other work incident to a general contracting and supply business, to carry on a general engineering business and to furnish plans and estimates for all classes of engineering work, to buy, own, improve, rent and sell real estate, with power to borrow money and issue mortgages and bonds against any or all of its property, real and personal, to buy, own and sell other mortgages, bonds, liens and contracts, to own stock in other corporations and to do any and all things necessary or expedient for the carrying out of the purposes hereinbefore mentioned.

ARTICLE V.

The capital stock of this corporation shall be Twenty-five Thousand ($25,000.00) Dollars, which shall be divided into two hundred fifty shares of the par value of One Hundred ($100) Dollars each. All stock shall be issued full paid and non-assessable. The corporation shall have power to receive property and services in payment for stock at a just and fair valuation to be fixed as provided by law.

ARTICLE VI.

The existence of this corporation shall be for a period of ninety-nine years.

ARTICLE VII.

The business of this corporation shall be conducted by a board of directors, which shall consist of not less than three and not more than five members, as may be determined by the by-laws, and the following officers, and such other officers and employes as from time to time may be employed, namely, a President, a Vice-President, a Secretary and a Treasurer, any two of said offices except the President and Vice-President, to be held by one and the same person. The members of the said Board of Directors shall be elected at the annual meeting of the stockholders of this corporation, to be held on the first day of March of each year, but the date of the annual meeting may be changed by a vote of the stockholders holding a majority of the outstanding stock. The name of the officers who are to conduct the business of said corporation for the first year, and who shall be elected at the first annual stockholders meeting, shall be qualified as follows:

BOARD OF DIRECTORS

H. L. Woodburn, L. B. Manley, S. H. Gilmore

Until the first annual election, H. L. Woodburn shall be President; L. B. Manley, Vice-President and General Manager, and S. H. Gilmore, Secretary and Treasurer.

ARTICLE VIII.

The highest amount of indebtedness or liability to which this corporation may at any time subject itself shall not exceed One Hundred Thousand ($100,000.00) Dollars.

ARTICLE IX.

The names and residences of the subscribers to the stock of this corporation, together with the amount of stock subscribed for by each, are as follows:

H. L. Woodburn, Massey, Maryland, 100 shares.

L. B. Manley, Miami, Florida, 30 shares.

S. H. Gilmore, Miami, Florida, 10 shares.

WITNESS the hands and seals of said subscribers the 2nd day of January, A. D. 1917.

(Seal) H. L. WOODBURN, Massey, Md.
(Seal) L. B. MANLEY, Miami, Fla.
(Seal) S. H. GILMORE, Miami, Fla.

STATE OF FLORIDA,
COUNTY OF DADE.

BEFORE me, the undersigned authority, came H. L. Woodburn, L. B. Manley and S. H. Gilmore, to me well known to be the persons described in and who executed the foregoing Articles of Incorporation, and they each and severally acknowledged before me that they executed the same for the purposes therein expressed.

IN WITNESS WHEREOF I have hereunto set my hand and affixed my official seal at Miami, in the said County of Dade, and State of Florida, this 2nd day of January, A. D. 1917.

LAURA S. HUCK,
Notary Public, State of Florida.
My Commission Expires 3-11-17.

"Synthetic Soup" Eliminates Meat From the First Dinner Course.

Science is hurrying to the rescue. Along sanitary and military and mechanical lines it has made marvelous progress. In the culinary field it leaves much to be desired. Now comes a Philadelphia chemist and offers mankind a mineral soup that is pronounced fully as nutritious as the finest beef extract. He told the Franklin Institute the other night how the substitute is prepared. It is a decidedly peculiar recipe, and one that might well make the ordinary cookbook shudder. You take portions of sodium phosphate and calcium carbonate and ammonium sulphate, add a little sugar and a small amount of yeast. These ingredients are mixed and set away until reaction by autolysis ensues, and a brown sticky paste that has all the nutritive qualities of commercial beef extract is produced.

According to the chemist, it is the yeast that transforms the inorganic minerals into the pronounced organic meat substitute. The yeast contains fermentation agents called enzymes, which are responsible for the alteration, and produce the food qualities from the chemicals. There were doubters about the table at the Franklin Institute. They insisted upon tasting the "stone soup," and pronounced it good. They even declared that it was fully equal in nutrition and appearance to the market variety, and each of the samplers pronounced the odor remarkably beeflike.

Incidentally the chemist announced that the cost of "stone soup," which he called synthetic meat, is less than than for the ox or sheep.—Cleveland Plain Dealer.

COMMITS SUICIDE AFTER MODEL WAS MURDERED.

BERNARD W. LEWIS

Bernard W. Lewis, whose father is well known and wealthy in Pittsburgh, committed suicide in an Atlantic City hotel in connection with the murder of Mrs. Grace Roberts, the Philadelphia model. He had driven in a taxicab to the vicinity of the home of the woman in Philadelphia the night she was killed, and failing to pay the bill for his drive, the chauffeur notified the police of Philadelphia. They believe his suicide solves the murder mystery.

In the whole test the patient is required to try to touch the tip of the nose with the fingers of either hand. Then she is asked to bring together—without opening her eyes—the fingertips themselves. If she succeeds in these tests there is no symptom of what the neurologists call incoordination.

FILED SUIT FOR FIFTY CENTS.

And a Georgian Named Three Companies as Defendants.

Atlanta Journal: Col. Henry Bedinger Baylor, Virginian by birth, Georgian by adoption, and lord of San Souci castle, Bedford place, Atlanta, filed suit for fifty cents in the city court a few days ago.

Colonel Baylor is the man who offered his sword to France some time ago and got a letter from President Poincare's secretary thanking him. His suit for fifty cents names as defendants the Georgia Railroad, the Atlantic Coast Line Railway Company and the Tidewater Power Company.

Colonel Baylor charges that the half dollar is due him for excess charges on baggage checked from Atlanta to Wrightsville Beach, N. C., July 17, 1916.

A Pennsylvania steel mill has been equipped to roll the largest plates in the world, 192 inches in width, the limit that it is possible to transport on American railroads.

To provide a substitute for the not always sanitary ice cream cone an inventor has patented a device that cuts a core from a banana and replaces it with ice cream.

According to a French physician the fumes from aluminum factories not only are destructive to vegetation but they also cause a form of diabetes to workers in them.

A JILTED YOUTH ASKS $5,000.

Dowry of Several Thousand Dollars Was Lost by Broken Engagement.

New York: The first jilted youth to seek compensation in the supreme court of New York county for a broken engagement since Russell Griswold ("Ruzzielamb") failed in 1911 to collect $50,000 or any other sum from Miss Helen Woodruff Smith, filed action a few days ago. He is more modest than "Ruzzielamb" for he asks only $5,000, although he insists that his prospects of marriage have been seriously affected.

The plaintiff, Samuel Youngswick, is employed in a cloak and suit house. He sues Miss Rose Waksschal, who is said to be well to do. Youngswick alleges that he became engaged to her October 12, and that, at her request, he promised to wed her December 20. Youngswick alleges that by reason of his expectation to wed Miss Waksschla, he incurred certain expenses, and he alleges also that "her broken promise has caused the plaintiff great suffering and anguish."

The attorney for Youngswick said the couple had followed the Hebrew custom of committing their engagement to writing, and that a dowry of several thousand dollars had been promised to the plaintiff.

A man has too much money when his bank account is big enough to induce him to become idle and worthless while he is young and strong enough to perform useful service.

DENTAL TALKS

In these days of advanced science many innovations and devices have been introduced in dental surgery to safeguard the patient against pain, blood poison or contagion—so that today the modernly equipped dental office is no longer a "chamber of horrors," but a place where patients may be treated in the most painless, scientific and sanitary manner.

My new office is thoroughly equipped to serve you along these lines.

The new Royal
Price $100
(In Canada $125)

"The Typewriter of Perfect Presswork"

THE flawless presswork of the new Royal Master-Model 10 carries the high-grade business message in as fine form as your thoughts themselves! Royal presswork reinforces the result-getting power of your business-letters—for it adds the forceful stamp of *quality* to every letter you sign.

"The Type That Tells"

Heretofore, you have been obliged to accept a standard of typewriting inferior to high-class printing, yet you would not accept poor printing. But with the new standard of "typewriter presswork" created by the ***new Royal "10,"*** it is no longer necessary to accept inferior typing in your office.

Pick up the letters you have signed to-day. Examine them—then see a sample of the faultless presswork of the ***Royal!*** On which kind of typing will you send your signature to represent YOURSELF?

Which one will you trust to convey unmistakably to the world the character of your house?

Get the Facts!

Send for the "Royal man" and ask for a **DEMONSTRATION.** Investigate the new *master-machine* that takes the "grind" out of typewriting. Or write us direct for our new brochure, ***"BETTER SERVICE,"*** and book of facts on Touch-Typing—with a handsome Color-Photograph of the new ***ROYAL MODEL 10***—all sent free to typewriter users.

"Write now—right *now!*"
